The Advanced Coating Technology offers more protection during styling.

With three heat and two speed settings, you can find the airflow performance you prefer for your hair type.

Then lock in your gorgeous styles with the cool shot button.

This hairdryer with concentrator and diffuser attachments make it easy to style with precision or build volume and lift while you dry your hair.

Advanced flame retardant housings + ALCI protective plug + Double safety net,100% protection for you and your family.

hair dryer

Double Safety

Advanced flame retardant housings and the scald accident can be avoided,100% protection for you and your family.

The blowdryer with ALCI protective plug, once the short circuit caused by leakage, leakage protection function is automatically activated to ensure the safety of you and your family.

Double safety net,prevent hair drawn into the duct, keep the dryer always working in high efficiency, removable air filter,easy to clean, durable to use.

Negative Ions Hair Dryers

Neutralize the positive charge in the hair to eliminate static electricity

Repair + smooth hair, making your hair more smooth and less damage.

Locking moisture within the cuticles, leaving hair with less static.

Powerful Fast Drying Hair Dryer

The blowdryers with DC motor,it lasts up to 3x longer than common motor hair dryers, the result is not only faster drying, but reduced heat damage as well.

3 Heat/ 2 Speeds Settings/Cool Shot Button

Adjustable temperature and speeds,ability to avoid heat damage.

Use lower settings for styling and higher temperature settings for

Hair Dryer with Concentrator and Diffuser

Styling Concentrator Nozzle

The Styling Nozzle concentrates the airflow on to a small area of hair for fast, easy styling.It's ideal for blow drying with comb and styling brush,to give a smooth,professional finish to the hair.
