Description [Reviews](#)

1.Super versatile small bowls These small bowls are of the right size and can be used to prepare meals, side dishes, rice, desserts, nuts, ice cream and dips. The size of the small bowl fits the small hands of a child, is easy to hold.

2.Unlike other materials, snack bowls do not contain harmful plastics, cadmium or lead. Through high-temperature calcination, our ceramic bowls are very durable.

3.The inner and outer (including the bottom) glaze makes the ice cream bowl smoother and protects the ice cream bowl from stains, making it easy to clean.

4.In order to stand out from the monotonous monochrome, our bowl provides a more attractive appearance and a pleasant dining experience.

5.The weight is moderate and it feels comfortable to hold.
