Description [Reviews \(1\)](#)

- 3.5 Inch Large Display & 2.4GHz Wireless Digital Transmission: Provides high definition and stable streaming, secure interference-free connection and crystal clear digital vision & sound. Our baby monitor provides you with clear real-time video and audio of your unattended baby.
- Long Distance Transmission & Infrared Night Vision: Long distance max to 960ft in empty area. It enables you to take the screen to upstairs/downstairs, bedroom, kitchen, garden or yard. Built-in 4 IR LED lights for night vision with infrared light. You can see your baby's face and details clearly even in darkness. Day and night, never miss a moment to get along with your baby.
- Two Way Talk Communication & Temperature Monitoring: This video baby monitor has advanced microphone and speaker for clear two-way audio conversations. Allows you to talk back promptly or play lullabies to soothe the baby when she is crying. And it can monitor the room temperature of your baby all day long. Remote in-room temperature display lets you know your baby is comfortable.
- Whole-Room Coverage & Timing Feed Reminding: Pan the camera 355 Degree to see corner-to corner and tilt 90 Degree to see floor to ceiling. You can access the set up menu, select "feeding" option to choose OFF, 2H, 4H or 6H. This function remind you to feed your lovely baby.
- Four Cameras Expand ability & High Capacity Battery: Up to four cameras can be added to this baby monitor. You can use additional cameras in different rooms, saving your money and giving you ability to simultaneously monitor the second child, the aged, the pet or other you care about. The high capacity battery can last 12 hours in ECO mode.
