My 1st GPS watch,But before I had a rangefinder,This dream sport golf watch is lightweight and comfortable, I almost forget on it,at first, I have a bit worried that watch setup would be troublesome.But actually it's so easy and provides correct distances quickly. I had been played 2 rounds without charging it and still had enough life.I really like it.

I bought this golf GPS watch for the tournament on Legendary Oaks Golf Course. This watch works very good, help me making a good decision to choose a right iron clubs or fairway woods because of the determination of the yardage, lowed my score. This watch is easy to use and the digital fonts are big for easy read. If you are a golfer looking for a good GPS watch with a good deal, I recommend this DreamSport golf watch.

★★★★★ **Needs better instructions**

Reviewed in the United States on December 8, 2018

I initially gave the gps a rating of 1 because I could not make it work. After I figured out how to charge it and find the golf course it works great. The large numbers for the front, back and center really help my 76 year old eyes. The only complaint is the instructions are severally lacking but it gets a "5" anyway.

★★★★★ **Quite impressed!**

Reviewed in the United States on July 15, 2019

Verified Purchase

Have used it for quite a bit, have to say it really impressed me, so come up for a review. Previously I carried range finder binoculars. For me, this watch is perfectly fine. I don't use several of the features, namely the score keeping, moving pin locations or the distances to hazards. I could see that the buttons on the side could be cumbersome if you were using these functions.

The battery life is great. I can play two rounds of golf and wear the watch for over one week with plenty of battery left at the end of the week.

For the most part, I've found the yardages to be very accurate. The course I play most often enlarged some of the greens so the approach distances to a couple of the greens can be off by five or six yards. I'm sure that Dreamsport support updating the course library as new or changes are made to golf courses if you play a course that has been changed or renovated.

★★★★★ **Great Gold Watch**

Reviewed in the United States on February 9, 2019

I love my new GPS watch from Dream Sport. It's attractive, easy to use, and has really helped my game. Shows me the distances to each hole from where my balls lays, which makes it great for choosing a club. It also keeps my score. All the golf courses around me are already uploaded on the watch. I just touch "play golf" and choose the golf course when it pops up. I'm extremely satisfied with my Dream Sport GPS golf watch. My friend's are looking at purchasing one.

★★★★☆ **Company stands behind their product with service**

Reviewed in the United States on December 14, 2018

Is rather large like a bulky mans watch (I'm a lady) . It's really nice to know your yardage to the hole by just looking at your arm. The wrist band is plastic and broke after 7 months. 😞, but the company replaced the unit with a new one. Would recommend this watch since the company was great to deal with.

Bought this for the hubby for Christmas and he is thrilled. Does everything it says and is more competitively priced than its rivals - just a pity it can't improve his handicap haha. Would highly recommend this - and Dream Sport as a company. They couldn't have been more helpful with an issue I had with a previous order: immediate replies to my questions backed up by actions. Thoroughly deserves my 5 star rating.

I bought this GPS watch thinking it was a good deal. However having followed all the instructions it's use it has never worked. I have emailed the company Dream Sports and received no reply even though brag about how good their customer service is. I would not recommend this product or company I now have a totally useless and worthless golf watch.

Bought this dreamsport golf watch ,it is a really brilliant golf device. It provides you the precise shot distanc,score card,green distance,hazard information,sun rise and fall,auto hole.I spent a round on the course messing around with it. Yardage readings were extremely accurate and it was perfectly visible under direct sunlight and right distance between front,back and middle measurements on green.The battery is last 2 rounds ,very good.If you want a good golf watch, dreamsport is a nice choice.
