Try it!

This is an amazing tool with luxury level of detailing and super satisfying "click" of its rotational torque switch. I was shocked by seeing it first by its metal casing and the quality of screwdriver sets. The screw driver is made of hard plastic and the feel of holding it is wonderful. I wish the screwdriver is made of metal instead of the casing (but at least it wouldn't loose the paint after many uses). I haven't used it much and I hope it would last for a while.

If can get this at around \$30-32 then don't wait. You'll be blown away.

This is Apple and Dyson kind of quality. Built is solid, premium, beautiful. The tips that come with it are tough, heavy, and sharp. For the size this thing is very strong and also quieter than the other drivers I've tried. It comes with USB-C and packaging is great. This cost as much as a filet Mignon. The filet will be gone in 5 minutes and this will bring you job for months or years. I feel bad for sounding like I'm advertising this, I'm not, I'm just blown away.

Great small screwdriver

Great small screwdriver I like the outside rubber coding it made it for a nice grip, perfect for what I needed it for, a single mother to use around the house.
