

## Our Educator Communities

Stay connected to passionate educators like you.

We believe in the power of community, so we've created opportunities for you to connect with fellow educators, share ideas and resources, and inspire each other. You're not alone in this important work you do.

## LONG + LIVE + MATH

LONG + LIVE + MATH is a growing community of math educators who are developing their students into creative problem solvers, critical thinkers, and life-long learners every single day.

## The LONG + LIVE + MATH Movement

is for rebels and rule-breakers who are leading the charge beyond paper worksheets and teaching to a test.

If you want a traditional math classroom where students passively listen to a lecture and take notes...this isn't for you.

But if you want to see math education completely transformed to where students have agency and enthusiasm, [join us](#).

### WHAT WE BELIEVE

**WE BELIEVE** that mathematics is critical to life. It's a language that empowers us to communicate, solve problems, and make sense of our world.

**WE BELIEVE** that math learning is about more than just a good grade. It's about deep conceptual understanding that supports ongoing growth and continued development.

**WE BELIEVE** that all students can learn math the right way — really learn and understand it more deeply — when we believe in them, expect them to participate, and encourage them to own their learning.

**WE BELIEVE** that all students deserve the opportunity to develop into creative problem solvers, critical thinkers, life-long learners, and more capable adults.

[▶ If you believe in this, take the pledge below!](#)

# The LONG + LIVE + MATH Pledge

**I COMMIT** to taking my students as far as they can go in mathematics this year.  
And then, taking them even further.

**I COMMIT** to leading classrooms where no one ever says, "I'm not a math person."  
The right kind of learning makes math available to all.

**I COMMIT** to taking three actions this year to improve math learning for my students.

**I COMMIT** to connecting with three math teachers in my district this year and inviting them to join the LONG + LIVE + MATH Movement, because we're far more powerful together than on our own.

I will lead by example to raise the bar for how math is experienced by every child.

**▶ If you agree, sign the pledge below and become a LONG + LIVE + MATHer!**

Join the Movement and get:

- + A like-minded community of educators to connect with and learn from
- + Exclusive invites to LONG + LIVE + MATH Meetups
- + Exclusive invite to our LONG + LIVE + MATH Facebook Group

## THE BENEFITS OF TAKING THE LONG + LIVE + MATH PLEDGE

Join the Movement and get:

- + A like-minded community of educators to connect with and learn from
- + Exclusive invites to LONG + LIVE + MATH Meetups
- + Exclusive invite to our LONG + LIVE + MATH Facebook Group
- + Access to the virtual Game-Changer Series with mathematical experts
- + Access to a dynamic flow of math-focused content through the LONG + LIVE + MATH Blog
- + The monthly LONG + LIVE + MATH Newsletter to keep you informed, energized, and connected to others doing this work all over the world
