If a technician needs to remove or install a tire from a vehicle near the ground, the TRAC Tire Jack simply slides under the tire and carries it off or on the vehicle. There is no need to lift with your back while using the TRAC Tire Jack. Just raise the vehicle from the ground with a floor jack. Place the TRAC Tire Jack under the tire and using leverage simply lift the tire away from the vehicle. Installation is just as easy with simply lifting the tire and sliding it back on the vehicle. Work Smarter not harder, use the jack-not your back.

Details:

Dimensions: 18.5in [l] x 5in [w] x 2in [h]

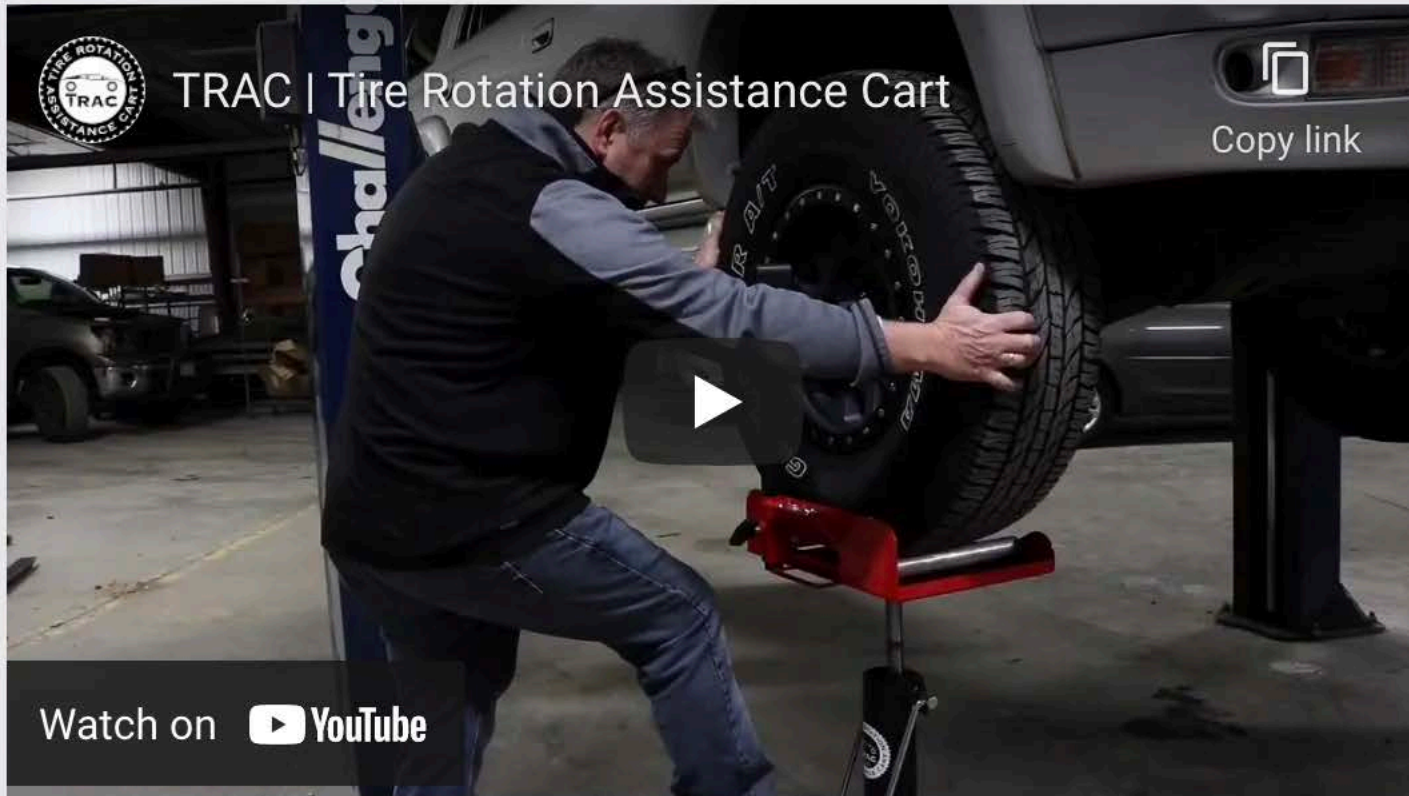

### Lifetime Warranty:

The TRAC | Tire Jack is built to last, and all workmanship and materials are guaranteed.

## Lifetime Warranty:

The TRAC | Tire Rotation Assistance Cart is built to last. If any of our carts fail for any reason, we will replace it.

# FAQ's

**Q. Who is the TRAC Tire Cart built for?**

A. It's built for the technician who is doing service work or tire rotations on vehicles.

**Q. What is the benefit of the TRAC Tire Cart?**

A. This cart is engineered for effortless tire rotations and new installs, minimizing risk of injury from lifting heavy wheels and tires

**Q. Can you customize the TRAC Tire Cart colors to align with our corporate branding?**

A. Yes, we can engineer carts with custom paint colors, please [contact us](#) for more information.

**Q. I'd like to place an order, how long until I receive it and what happens if you are out of stock?**

A. If we have inventory, you will receive your cart 5-10 business days. If we are out of stock, please [contact us](#) for freight timing.
