### ABOUT US

#### The Process

With new solar technology and the Federal Tax Credit being extended, there's never been a better time to take control of your power than now.

Whether via an in-person or virtual appointment, our consultants will assess and educate you on your home's energy habits and design a solar proposal to fulfill your energy needs.

#### Core Values

Operating on our three core values of: *integrity, honesty, and transparency*, Helix Sun strives to provide its homeowners and business owners with an educational and exciting experience like no other.

#### Our Promise

From initial energy assessment and system installation, to your solar being energized and beyond, we are here to provide you with peace of mind and above all, *energy independence*.

Making the leap from renting to owning your power is a new and exciting journey, we hope to be a part of yours!

# Our Referral Program worth \$1,000

When you refer a friend, family, or neighbor that installs a Helix Sun solar system, we'll pay you \$1,000 for EACH ONE!

## FREQUENTLY ASKED QUESTIONS

When it comes to educating homeowners, these are the most common questions we are asked:

- Why go solar? ▼
- Is solar "expensive"? ▼
- Why Helix Sun? ▼

## SCHEDULE YOUR FREE ENERGY ASSESSMENT

### What takes place during an Energy Assessment?

In order to discuss everything necessary to go solar, we'll need you to provide us with recent copies of your electric bills. This will allow us to show you what you are currently using and the amount of solar required to offset your needs. We will also design your system using a "solar CAD" tool so you can see what it looks like on your roof. From there, we will walk you through all applicable financing options including our \$0 Down solar loans, so that you and your family understand all your options!

### Assessment Availability:

Monday - Thursday 10am - 6pm CST  
Friday & Saturday: 10am - 4pm CST  
Sunday: Special Request
