ANTHONY TREVIÑO
Retired San Antonio Assistant Chief of Police

“Truleo’s technology is a game-changer. With reporting built by police for police, Truleo is designed to help mitigate risk by showing command staff what insights and trends exist within their interactions with the community.”

WHY TRULEO

Police across the U.S. wear body cameras every day, but only 0.1% of the footage is reviewed.

Truleo provides agencies with an audio analytics platform that cuts review time, and provides important insights to improve policing.
