### Description

1. Length and Width Two-Way Widening Shoes: These painted widening shoes are designed to lengthen and widen shoes that are too tight or uncomfortable. We designed it to be a unisex shoe stretcher that can be worn by both men and women. Each end of the stretcher is thin enough to fit narrow shoes, but it also stretches enough to stretch wide shoes.
2. Women's and Men's Insoles: Each insole is suitable for men's shoes in sizes 41-46. Whether you have wide feet or prefer a larger shoe, these shoe expanders can meet your specific foot care needs. These wideners are even suitable for dress shoes, leather shoes and slippers.
3. Customized Decompression with Included Bunion Plug: Use the included decompression capsule to address your specific problem area. Whether you need a wider shoe and have bunions, corns, blisters or tightness in the toes or heels, this shoe widener has you covered.
4. Stretch Your Shoes in 24 Hours or Less: To use, just insert the shoe support into your shoe and turn the handle until it stretches to the desired width you need. Then, leave the table overnight or 24 hours.
5. This wooden shoe brace is designed to lengthen and widen shoes that are too narrow or too tight, and to meet your specific needs for certain uncomfortable foot areas.
