

e2L Products

engage2learn is excited to offer many of our services and processes as stand-alone products that can be utilized by districts of all sizes and demographics.

eSuite

The comprehensive coaching platform for public schools

With eSUITE, educators finally have their own comprehensive web application to create detailed records of their coaching efforts and to both standardize and personalize coaching and growth for everyone

[Learn More](#)

indipath

The lesson design & delivery platform built to accelerate learning for every student.

indipath gives teachers and tutors an easy way to design and integrate differentiated, standards-aligned academic core courses and social and emotional learning (SEL) lessons for students to navigate and master autonomously, all in one simple app.
