Good value for Twenty bucks, hope it lasts, what had me taken aback was the list of do nots, like do not step on hose, pressure requirements for operation, pretty fragile like most "expandable" things

The flex hoses tend to leak, so I got this one because it looked like quality. It failed the second time I used it. That is why I buy from Amazon because they cover returns. I replaced the hose and paid for a 3-year warranty on new the replacement.

TLDR: Clever hose that makes maneuvering and coiling extremely easy relative to rubber hoses.

This hose is very clever. Instead of having to coil the full length of a heavy rubber hose which fights you at every turn, this hose collapses to about a third of its length when not pressurized, meaning that you have much less hose to coil. It is also surprisingly lightweight and easy to maneuver. The material does not appear to have any "memory" meaning you aren't fighting it to move it around or coil it up.

**Worked Great for 3 months**

Worked great until the back piece fell out rendering it pretty much useless. Water now falls out of the back of the hose with zero pressure (see video). Not sure if this may have happened during a colder day when it froze and popped off? Cannot get to fit back in, may try a glue of some sort. Unfortunately, without this crucial piece the entire hose is now not functioning.

**Excellent hose with a nozzle**

Reviewed in Canada on January 2, 2021

**Verified Purchase**

This hose is so compact, that it fits in the little space I have in my garage. My current hose and hose reel was all damaged and broken and needed a lot of space. This one fits perfectly and even comes with a clip / hanger to hang my hose neatly. The water pressure is perfect and can be adjusted too. It's got a shut-off value on the hose which is a bonus. The spray is nice and solid built and has different settings. I like how it's like a complete package, so I don't have to buy each item separately. The hose expanded real well and need very little space to store. In fact I'm going to get a second one for my backyard now (this one is for my front yard).

**So good I ordered a second one.**

Reviewed in Canada on July 16, 2021

**Verified Purchase**

I am still amazed to watch this hose shrink back to a discreet little pile hidden behind the tomato pot, after using it to water the boxes on the other side of my 25 foot deck. At ground level I was struggling with a 25 foot regular hose, which was heavy, stiff, and constantly damaging plants I accidentally pulled it over. The

new one(my second purchase) does no damage and is easy to maneuver, and now I can watch it shrink away into a hiding place where it will not give me gallons of solar heated water when I turn it back on. Win, won, win

No fuss hose!

Reviewed in Canada on September 24, 2020

Verified Purchase

I've used this hose a bunch of times now and it is essentially a no-hassle product. My last "expandable" hose from another manufacturer ended up with a nice hole in the middle of the hose, so I had to get a new one. This one is a great replacement. My only problem is that I ended up needing one length higher, but that's my problem.

The hose seems to be made of a sturdy mesh-like material that's light when it's empty and feels solid when it's filled with water. The brushed finish on the nozzle is a nice touch, as the included hose hanger and the spare rubber washer. The nozzle has a good selection of various speeds, but nothing more than what I had on another nozzle.

Great price, great product. Will definitely buy again when I need a longer hose!
