Material Steel

About this item

- 1.Product information: The new generation of arm support plate integrates the deficiencies of other products, adopts a more reasonable and stable structure, and concentrates on solving the problem of neck and shoulder pain caused by long time work of users and hanging arm!
- 2.Product Material: This product uses a sheet that meets the European standard E1 level, Stainless steel double K-shaped support frame, double clamps are locked on the desktop, making the product more fit and stable on the desktop!
- 3.Folding design: It is convenient for users to fold and store at 90°when they are not needed, and does not take up your space!
- 4.Product specifications: The size of the support board is 30cm*15cm, which can bear 20 pounds!
- 5.User solution: Erect a healthy sitting posture and bid farewell to soreness. Give yourself a healthy body at the least cost. For the user experience, we are always on the road. If you have any questions, you can email at any time. Thanks for your support!

Warranty & Support

Amazon.com Return Policy: You may return any new computer purchased from Amazon.com that is "dead on arrival," arrives in damaged condition, or is still in unopened boxes, for a full refund within 30 days of purchase. Amazon.com reserves the right to test "dead on arrival" returns and impose a customer fee equal to 15 percent of the product sales price if the customer misrepresents the condition of the product. Any returned computer that is damaged through customer misuse, is missing parts, or is in unsellable condition due to customer tampering will result in the customer being charged a higher restocking fee based on the condition of the product. Amazon.com will not accept returns of any desktop or notebook computer more than 30 days after you receive the shipment. New, used, and refurbished products purchased from Marketplace vendors are subject to the returns policy of the individual vendor.

Question: [Do you have to screw this into the desk itself?](#)

Answer: Hello, you only need to install the accessories you have in hand according to the instructions of the installation manual, and then clamp the support plate to the computer desk board that needs to be used, and tighten it. You don't need to screw the computer desk button! Thank you for your consultation, such as If you ... [see more](#)

Question: [I have this mostly put together but I don't know how to attach the round rubber bumper pieces to the large bolt? Mine won't screw on.](#)

Answer: Hello, dear customers:

Just insert the screw directly into the round rubber buffer sheet, no need to twist, you should choose the smaller face to insert and fix it!

If you have other [questions](#), please contact us, thank you for your support

This is a great armrest... with one big flaw!

Reviewed in the United States on November 14, 2021

Color: Black **Verified Purchase**

The arm rest itself is awesome. It would be a perfect purchase except for the fact that the threads are in a 3/32 inch thick piece of metal. To keep this in place you have to get it pretty tight. This seemed fine for a few days but in under a week the threads started to strip out. The arm rest no longer tightens enough to keep it in place after only 2 weeks and is useless. There are ways you could fix this, but i shouldn't have to. This flaw would have been caught if this had any testing before being listed for sale. To fix this there should be a nut welded to the underside to increase thread depth. Another option would be to put 2 nuts on each bolt to lock it in place. Spending \$30 on this, its a bit ridiculous that i even have to consider this. I cant recommend this arm rest but to be honest, what can you expect with everything sold being cheap Chinese garbage anymore.

[Shop now](#)[Helpful](#) [Report abuse](#) Evan Mills**Awesome solution for a desk that's not deep enough.**

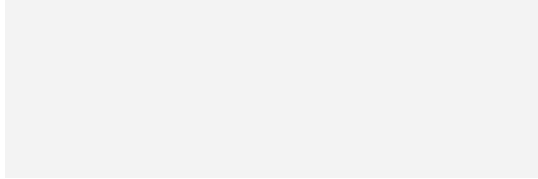

Reviewed in the United States on June 23, 2021

Color: Black **Verified Purchase**

It's really amazing how there's pretty much always a product out there that solves such a specific problem. I always hated not having a place to rest my arm when working on my Cintiq. I finally searched around and found this. Man it's perfect! Super comfy resting position for me now.

The unit itself will need to be assembled but it's really easy. You just need a Philips head screwdriver for the included self tapping screws to mount the brackets to the board. They even included extra screws which was very nice. Once assembled it was very sturdy and doesn't move around. You can feel fine naturally resting your arm/elbow on it. Heck, you can even use it to hold drinks or snacks perhaps?

For the price, I don't think I could have made anything this good looking or functional myself. Totally worth the buy if you think this would work for your situation.

[Helpful](#)[Report abuse](#) Mr Jones**Desk Extender**

Reviewed in the United States on November 28, 2021

Color: Black **Verified Purchase**

I have a large ultrawide monitor on a desk that is not very deep. This arm allows me to move my monitor back for better viewing. Holds weight with no issues and folds out of the way when not needed.

Very Okay

Reviewed in the United States on October 8, 2021

Color: Black **Verified Purchase**

Bought this for my home office. Thought I had enough space to mount this to. It really does need a lot of space to mount, so if you not have a lot of overhang on your desk, this might not work. Tightened full, it still slips off the desk. You cannot put a lot of weight onto this, so if you know you lean on your mouse hand, you are going to have a bad time. Top of the mounts damaged my desk finish. I would not use this on glass table tops without some added padding.

That being said, its not bad, just not great. I was expecting more for the price.

Just what I was looking for!

Reviewed in the United States on February 26, 2022

Color: Black **Verified Purchase**

Perfect for elbow support when you don't have an "L" shaped desk. Was going to build something like this but just happened to search it on Amazon. So glad I did. Does the job perfectly. One word of caution: it would be a good idea to cut two small pieces of felt to out between the metal tabs and the top of the desk. I loosened the unit up to reposition it and discovered that it had left two marks on my wood desk.

Angela

Hey it works and it's worth

Reviewed in the United States on February 2, 2022

Color: Black **Verified Purchase**

I wish this one turned like my other one but it flips down so it works. I'm a bit limited on space but for the price and the fact that it's in line or level with my desk makes it so much easier on my arm. I spend many hours at my desk so it's a nice feeling not to have my arm hurting all the time. I did add one more memory foam like cushion and a mat on top of it but other than that it's simple to install and easy to use.

brezer

Perfectly strong and supportive

Reviewed in the United States on September 18, 2021

Color: Black **Verified Purchase**

I tried several different solutions similar to this and this one is the winner by far. It's supportive and comfortable for me to rest my arm on it when I write, and even after leaning too hard on it a few times it hasn't cracked or broken. Thick plastic seems to be the winner!

Saved my wrists

Reviewed in the United States on December 11, 2021

Color: Black **Verified Purchase**

I ordered two of these and they helped my wrist pain immensely. I was waiting to see the doctor to find out what the problem was and tried many accommodations while waiting for my appointment. Using these made a huge difference in my ability to work. Highly recommended!
