[Breathable Knit Sneakers] : The super soft upper and lining help expel air and keep your feet comfortable all day long.

[Slip On]: The popular design makes it easy to put on and take off. There are TPU patches on the side, so it is not easy to slip off even with strenuous exercise. The laces allow the walking shoe to adjust to your foot.

(Comfortable Foam Insole **)** : The insole provides enough support and comfort for your feet. It allows you to walk or stand for long periods of time without feeling sore.

【Special Outsole Design】: The ultra-light supercritical EVA outsole provides superior comfort and increased energy return. It also has an excellent anti-slip effect.

[Occasion] : Women's lightweight walking shoes are perfect for many of your daily activities. Such as walking, fitness, work, shopping, travel, tennis, standing for a long time, etc.
