

# The Ultimate Backpack

INSPIRED BY CYBERTRUCK

BUY

## The backpack Tesla never made

### **HARD SHELL**

Cyberbackpack is built with a hardshell exterior made from PC material and carbon fiber mixed in a special ratio for superior strength and durability.

## **PERFORMANCE AND UTILITY**

Cyberbackpack has a 45° opening and multiple compartments suitable for a 17.3-inch laptop, iPad, headphones, phones, mouse, books, and more.

## **SAFE AND SECURE**

Cyberbackpack has a TSA-certified code lock and a keyhole for customs officers to access if needed, preventing forced access and damage.

< 1/1 >

## ***Breathable***

Cyberbackpack comes with a breathable and massaging back panel design that efficiently dispels heat, keeping you cool and comfy.

BUY

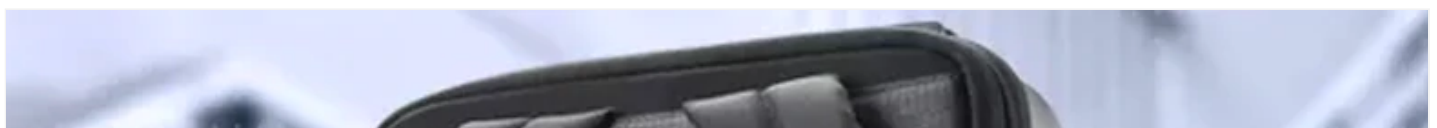

## ***Expandable***

Cyberbackpack comes with a 5cm expandable inner lining, allowing for a larger capacity when needed.

BUY

## ***Luggage Strap***

Cyberbackpack comes with a luggage strap allowing you to easily attach it to any luggage pull handle for easy carrying.

BUY

## ***Anti-Theft Pocket***

Cyberbackpack comes with a hidden compartment on the backside that can only be accessed by the carrier.
