**MINFULEE LED lighting fixtures LED Lights IP68 Waterproof, with Remote Control, Battery Powered, Color-Changing Lights for Pool, Pond, Hot Tub, Shower, Bath, Bar, Wedding, Party, Aquarium, Vase Decoration**

- **PERFORMANCE** – This submersible LED light comes with 10 bright LEDs powered by 3 x AAA batteries. The light is very compact in size (2.76in / 7cm in diameter) for placement at any place. **KIND REMINDER** - This product is without any suction cup.
- **FULLY WATERPROOF** – This underwater LED light is designed to be IP68 waterproof with double layer silicone sealing rings.
- **REMOTE CONTROL** - The infrared 24-button remote makes it easy to control the lights at distance. One remote can control multiple lights.
- **COLOR-CHANGING** – Set the light color as desired with the RGB buttons. 4 automatic color-changing modes (flash, strobe, fade, smooth). All the colors are dimmable.
- **EXTENSIVE USE** –This compact and waterproof light can be extensively used both indoor or outdoor for swimming pool light, pond light, aquarium, fish tank, waterfall, bars, pubs, wedding, party, vase with flower, decoration for events, etc.

**PRODUCT DESCRIPTION**

Color Changing led luminaires Submersible LED Lights

For the hot tub, swimming pool, pond, aquarium, fish tank, waterfall, bars, pubs, wedding, party, vase with flower, decoration for events, etc.

What you will get:

2 LED Lights

1 Remote

Each LED light is 2.76 inches (7cm) in diameter with 10 bright LEDs.

The compact size makes it very easy to place anywhere!

Powered by 3xAAA batteries, you are away from the worry for electric shock safety and the trouble with the power cords.

With the double layer silicon sealing ring, it is fully IP68 waterproof for submersible use.

The remote is with 24 button control. With the remote you can turn on and turn off the light at distance, choose any color you want, adjust the brightness, and set the way you want the color to change. There are 4 modes for color-changing: flash, strobe, fade, and smooth.

**KIND REMINDER**

Too many remotes are not necessary and it is a waste! One remote can control 2 or more lights.

Remember as the remote is infrared (same as the traditional TV remote), you need to point at the light for the control.
