**BAD**

Increased CSA  
Score

The BOOST Safety Program by Marquee offers truckers insights on the CSA Behavior Analysis and Safety Improvement Categories (BASICS) Scores. Also included are a total amount of inspections based on the past 24 months.

This program's main goal is to help carriers identify what BASICS need improvement and offer solutions.

**January Inspection Details**

| Date      | Truck and Trailer VIN                   | BASIC             | Description                    |
|-----------|---|-------------------|--------------------------------|
| 1/19/2022 | 4V4NC9EH9FN916627,<br>1GR1P062XLK178716 | Vehicle<br>Maint. | Flat Tire Or<br>Fabric Exposed |
| 1/19/2022 | 4V4NC9EH9FN916627,<br>1GR1P062XLK178716 | Vehicle<br>Maint. | Inoperative Turn<br>Signal     |

The email also consists of a detailed description of the month's inspections. This dives deep into what, if any, violation occurred during the inspection and for which BASIC it affects.
