Description

Product Introduction:

Safe material: these wind-up bath toys are made of plastic material, strong and sturdy, not easy to be damaged, non-irritating smell, non-toxic and safe, please rest assured to buy

Clockwork toy: wind up bath toys adopt a clockwork design and does not require any electricity, so it will rotate when you turn its clockwork button and it is safer and more friendly, you can use it as a baby's bath toy with confidence

Happy bathing time: water play can be applied on many occasions, whether it is a bathtub, a basin, or a swimming pool, it can bring boys and girls an interesting swimming competition, allowing them to enjoy the world of water and bathing time

Develop Baby's Hand-eye Coordination: Fun bathtub toys help develop your baby's hand-eye coordination, catching ability, imagination and great for interactive play. Besides, it will stimulate your baby's sense of competition, active his hands-on ability, help your baby learn colors.

Material & Safe: Bath Toys are made of ABS plastic, We are very concerned about everything about the baby and prohibit all unsafe materials. so it's 100% safe for your babies!
