Services

Braces

Traditional metal braces are the most common type of braces and are more comfortable today than ever before. Made of high-grade stainless steel, metal braces straighten your teeth using metal brackets and archwires. With metal braces, you have the option of adding colored elastics (rubber bands) for a more unique and colorful smile.

Even cooler than adding colored elastics to your braces? Different colored braces!

We're proud to offer gold, rose gold, rainbow, royal blue, classic black and silver braces!

Invisalign & Invisalign Teen

Invisalign uses a series of invisible, removable, and comfortable aligners that no one can tell you're wearing. So, you can smile more during treatment as well as after. Invisalign is made with 3-D computer imaging technology and has been proven effective. Not to mention, our doctors are Top 1% Invisalign providers!

With Invisalign Teen, you won't need to turn down any dates to prom, wear a paper bag over your head, or hide out in your room for two years. Invisalign Teen clear aligners are a perfect fit for your lifestyle, because these aligners are clear, removable, super comfortable, and customized just for you.

Retainer Assurance Program

Retainers get lost. Pets use them as chew toy. And sometimes they can get accidentally tossed in the trash. That's why we offer our Retainer Assurance Program which gives you unlimited replacement retainers for up to 6 years after you've completed treatment. After all, the #1 way to keep your smile looking amazing is to wear your retainer as directed.

What you get:

- Unlimited retainer replacements for up to 6 years after treatment.
- Pay in full or in low monthly payments during your treatment.
- Only pay a small copay to get replacement retainers instead of forking over \$300 out of pocket.

Teeth Whitening

At Imagine Orthodontic Studio, having a straight smile is just part of the magic – making it sparkling white is the other part. That's why we offer teeth whitening after your treatment is complete so that your new smile is as bright as it can be.

At the bottom left, there is a "Translate »" button, and at the bottom right, there is a purple circular button with a white upward-pointing arrow.

The main content area features three columns of purple buttons. Each column contains a 'CHILD EXAM' button on top and an 'ADULT EXAM' button below it.

Complimentary Consultation

At your first visit to our Lakeland orthodontist office, we make some diagnostic records to determine the best course of treatment. Diagnostic records typically include photos of your face and teeth, as well as x-rays. We use this information to develop a custom treatment plan that's unique to your needs and goals. These records are also helpful in tracking the progress of your treatment as your teeth begin to move and shift into the optimal position.

After we have evaluated your records, we'll discuss our recommended treatment plan with you in detail.

Regular Appointments

Your first regular appointment is where the magic really happens. This is when we give you your appliances like braces, expanders, etc. Getting your appliances put on usually takes about an hour. Then, you'll visit us at regular intervals, about 4 to 8 weeks apart, so that we can look at how your teeth are shifting and make any adjustments needed. This type of appointment takes around 30 minutes.

It's important to note that patients are only seen by appointment only. We really make every effort to be on time for our patients and so we ask that you do your best to be on time for your appointments. Of course, we get it, life happens. If you know you're going to be a few minutes late, or need to cancel an existing appointment please notify us as soon as you can.
