TESTIMONIALS

★★★★★ 2 weeks ago
"I brought my iPhone in to replace the battery which was making the phone go completely dead at odd times. The young man running the store was very friendly and knowledgeable. He told me the full price and had repaired many before. In about 15 minutes he handed my phone back with a new battery in it and even put me a brand new screensaver on my phone. Now a day later my phone is working better than it has in years. I highly recommend them for phone repairs."

"The customer service here is exceptional. Soon as I walked in I was greeted and serviced. The atmosphere was pleasant and the store was very clean and organized. I absolutely love the caution sign on the window for individuals with epilepsy. It shows they really care about people and their well being. I will be returning and sending more customers their way."
