3 CHARGING MODES AVAILABLE FOR DIFFERENT PHONES: 7.5W charging mode is for iPhone 13/13 Pro/13 Mini/13 Pro Max/SE 2022/12/SE 2020/11/XS/XR/X/8 with latest iOS System; 10W charging mode is compatible with S22/S22 Ultra/S21/S20/Note 10/S10/S10E/Note 9/S9 and so on; 5W charging mode works on any wireless-charging-enabled phones like Google Pixel 3/3XL/4XL and so on. Note:Adapter is Not Included, QC 2.0/3.0 adapter, iPhone 11 Pro PD Adapter, Note 10/10 Plus PD Adapter will be highly recommended.

The latest dual-coil wireless technology: Using 2-coil high-quality components, it brings you a wider charging area and stable charging status. The wireless charger is suitable for most cases within 5mm/0.19", such as rubber case, hybrid case, plastic/TPU/PC case, etc. (Magnetic and metal attachments and other foreign objects can interfere with charging.) No need to strip the condition before charging.

VERTICAL AND HORIZONTAL CHARGING: This wireless charger also has a non-slip pad and stylish design. Besides being able to charge your phone horizontally or vertically, it also provides a perfect viewing angle for your eyes and prevents your phone from getting scratched. Whether watching movies, listening to music, calling or texting, the entire charging process will not be interrupted.

Smart LED Indicator: A simple white LED light indicates charging status, helping you to know the status of your wireless charger directly. The charging status is solid white, and the non-charging status is flashing.

Safer charging and multiple protection: Using efficient components and advanced chipset, smart charging, Qi & UL certification, built-in smart chip. Exclusive multi-function intelligent protection technology, providing iPhone wireless charger temperature control, overcurrent protection, overvoltage protection, etc.

Date First Available April 12, 2022
