Description Reviews (0)

heart rate monitor and pedometer: fitness tracker watch built in high performance motion sensor automatically monitors and detects your heart rate in real time, help you better grasp changes for your health and record accurately calorie consumption, distance, steps.

call and message notifications: when you connect the smart watch to your smartphone, you will never miss a call or message again. it will vibrate and notify you when your phone receives a call, sms text or sns notifications . you can even hang up incoming phone calls straight from your wrist.

ip67 waterproof: with the technology of ip67 waterproof, the smart watch will not be damaged even if you wash your hands, bathe and swim while wearing the fitness watch. meet your daily needs. (note: the smartwatch does not prevent hot water and sea water.) after connecting to the phone, you can also see the real time weather forecast.

overtake your expectations: our 1.4 inch color touch screen make it easy to operate and easily check detailed data reports. there is 4 stylish clock faces for you to choose from, different styles match your different moods. more practical tools such as alarm clocks, stopwatch , timer, camera control, music controller, sedentary reminder, adjustable brightness, find phone. this watch can be a very good gift choice to make people live more healthy, more active and more convenient.
