04/01/22 This was our first time

This was our first time using such a product. It is very soft and unintimidating. Easy to use, and clean. I can't imagine a better experience using such a product. Maude products make everything so easy.

03/04/22 Changed the Game!

I love this product so much! Other lubricants I have used are sticky and gross. This feels natural, smooth, and oh so good. I love Maude! I also got the massage candle, which smells like a dream and really sets the mood.
