

# I know it's soft, but velvety soft?

Double the softness

BabyCozy? Because it's the gentlest diaper to care the most delicacy

babv's skin has onlv 1/10 thinness of adult's skin. delicate enough as it is. so the 24 hours sultrv smothering and friction of diapers will make it more vulnerable.

Baby's skin has only 1/20 thickness of adult's skin, delicate enough to feel, so the 2.1 needs daily smoothing and friction of steps that make it more valuable, so the most gentleness must be called.

Hence,

It must be born with some missions,

Like to get a velvety and cotton nest,

Like to cosset the delicacy,

Like to soft stroke each exploration.

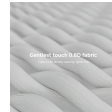

## Cottony soft + velvety soft We doubles the softness!

Indulge in the velvety and cotton nest,  
Like the gentlest touch from your mom, Like the fluffy snug from the kitty.

Double softness

Double cut of skin touch, double cut of friction.

Gentlest touch 0.8D fabric

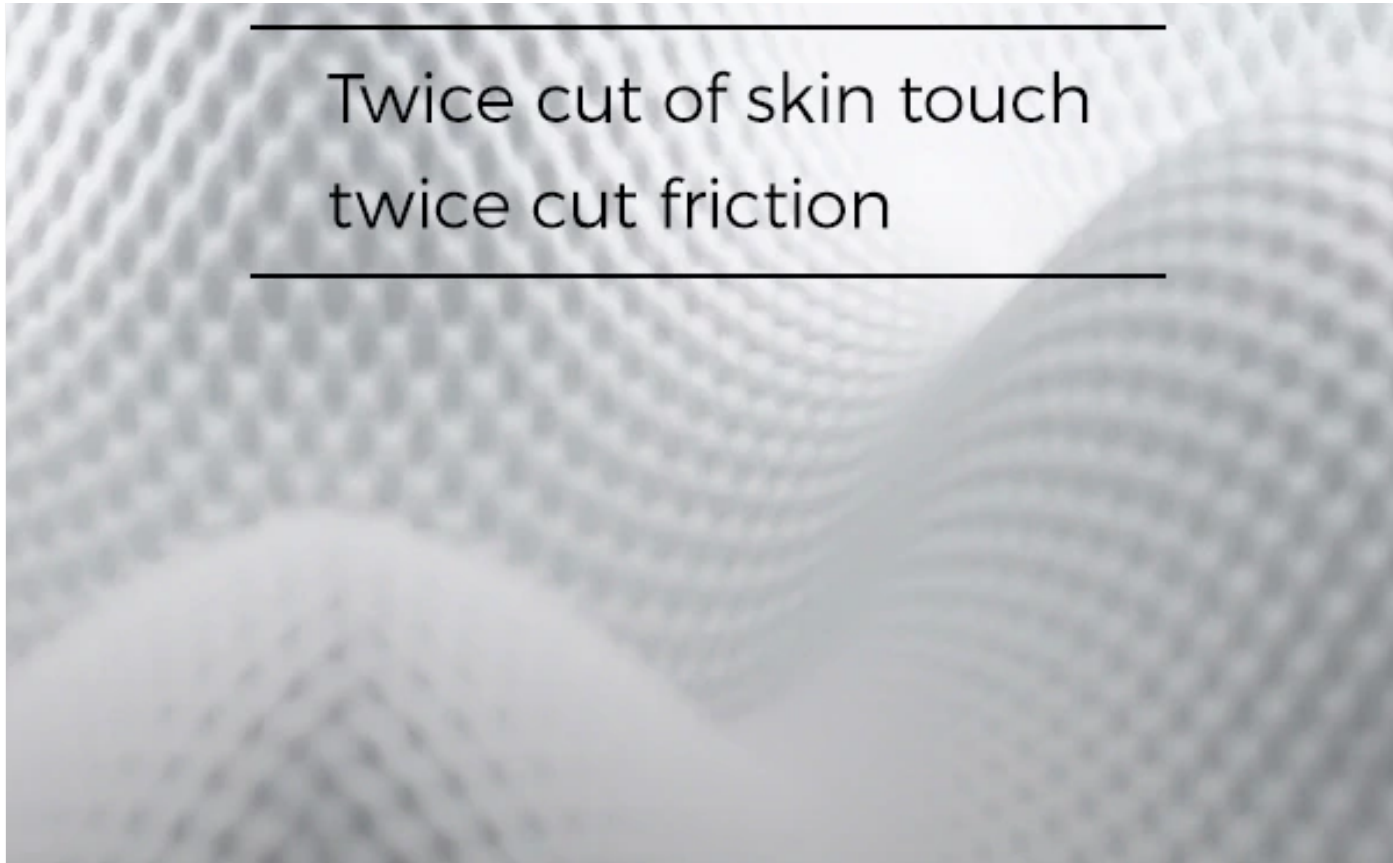

Lighter 0.8D density weaving, lighter feel  
Not even a scratch will be left

Finest 10 microns fiber

--10 microns=10 times smaller than a hair  
--10 microns=10 times thinner than a paper

## 2000+ embossed “Cocoon Bumps

Bounce into the velvety and cotton nest,  
Soft stroke each exploration.  
You wiggle, you squirm,  
you curl, you twist,  
We will always get you, little pal.
