About this item

- [Refracting Flame Inverted Image - Burning Like a Real Flame] These LED candles use a 3D black wick with a layer of transparent jelly wax at the bottom. The transparent jelly wax reflects the candlelight as if the real wax has melted. If you don't pay attention to these flameless candles, you won't even see that they are fake candles.
- [A Timer That Cycles Every 24 Hours - Free Your Hands] 2/4/6/8 hour timer for your choice. If you turn on the flameless candle at 6 PM today and set a 4-hour timer, the flameless candle will be turned off at 10 PM and will be turned on on time at 6 PM tomorrow.
- [150 Hours Battery Life - Ordinary Battery] In order to reduce the number of battery replacements, we re-rectified the circuit and optimized the power consumption. Powered by 2 AA batteries (Not included) per LED candle, the expected battery life is of approx 150+ hours (ordinary battery). The lifetime of an LED Lamp is 50,000 hours.

- [Real Paraffin Wax - Feel The Real Touch of Candles] These 3 packs of LED candles are coated in real, thick paraffin wax - not plastic. The smooth, ivory finish complements all styles of home decor.
- [Flameless Design - Security for You] LED candles to have no dripping wax, no flames, and no risk of fire. You can experience the lighting of burning candles while avoiding the mess and fire hazards caused by burning candles. You can safely use it in no man's land.

Most realistic flameless moving wick candles I've tried - and I've compared a bunch!!!

Reviewed in the United States on August 7, 2019

Color: Ivory-b **Verified Purchase**

These are seriously the best flamless I've seen. I bought about 10 different packs of candles from various manufacturers, I set them each up and turned them on and compared. Many were too fake yellow looking when they glowed. These were the most realistic looking - especially with the subtle nuance of the blue flame at the base. Love them! I returned the others and literally purchased 10 more packs of these. Yes - I now have about 30 of these in my house in every room all set on timer and every night They come on and create the most beautiful ambiance. Love these!

The candles are made of real wax and the flame is very realistic. It even has the little bluish hue at the base of the flame...

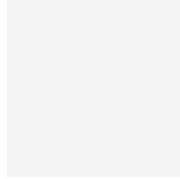

I like the remote as well because I have one of them in a lantern. The timer is a nice feature also, 2,4,6 or 8 hours. When the time is up it turns off and automatically comes on again at the

Great flameless candles!

Reviewed in the United States on November 5, 2020

Color: Ivory-b **Verified Purchase**

I really love these flameless candles. The light isn't too warm, so they are more realistic. There is a slight clicking noise, but I think most of these type with the moving "flame" are the same. I ordered 2 sets and one remote works on all of them, which I absolutely love. I will definitely be ordering more for my Christmas decor.

Unrealistically bulky

Reviewed in the United States on January 25, 2021

Color: Ivory-b **Verified Purchase**

I was really excited to receive these candles after comparing reviews on similar products. Other customers raved about how realistic these were so I chose these. As soon as I opened the box, I was disappointed. They are so huge (thick and tall) that they are like a cartoon version of pillar candles. The very opposite of realistic in every way. I knew immediately how ridiculous they looked but put

them on my wooden candle spindles anyway just to see and it was just horrible... they're way too big and bulky and take over the whole set up. I didn't even test them lit up since there was no point.

Real wax coating & flame looks real

Reviewed in the United States on June 29, 2020

Color: Ivory-b **Verified Purchase**

Unless the batteries are laid correctly...they won't work..then you think it's broke..since they go on top of each other..I wasn't sure which way it was suppose to go..I just kept trying until it lit up.

On the advertisement the battery size is incorrect.

Other than that they are real nice it really looks like a real flame. I like the real wax coating

Close but not close to enough to realistic

Reviewed in the United States on February 18, 2021

Color: Ivory-b **Verified Purchase**

As flameless candles go this is just ok. They make a big deal about the 3-D flame but that's just a play on words, as they take the flame and fold it at the middle, however the flame is hinged so that it only waves back and forth. Luminera candles by comparison mount the flame differently so that it has can rotate and sway smoothly making for a much more real-life candle.

I am keeping these as they are functional, but would recommend getting Luminera candles if you're looking for greater realism.
