

Some people look to the stars  
and ask, "What if?"

The **U.S. Space Force** defends our country and freedom to operate in space, keeping it secure, stable and accessible for military space power and new waves of innovation.

Once the new frontier, it now defines our daily lives and ways of war — on air, land and sea. From GPS to strategic warning and satellite communications, we defend the ultimate high ground.

#### OUR MISSION

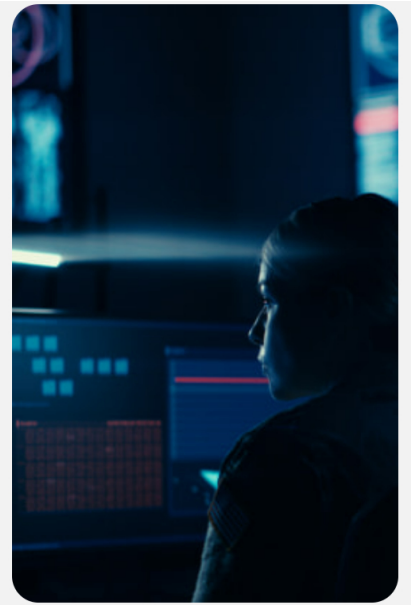

There's no such thing as a day without space operations.

---

## GPS

Advance GPS technology to secure and improve communication across all military branches.

Maybe your purpose on this planet isn't on this planet

GUARDIANS WANTED

FAQS
