PAYMENT OPTIONS**DESCRIPTION****REVIEWS (0)****NQRXGEJ SPEEDOMETERS BIKE COMPUTER WIRELESS WATERPROOF, 18 FUNCTIONS BICYCLE SPEEDOMETER AND ODOMETER WITH MOUNT, CYCLING COMPUTER MILE TRACKER, 2.4" LARGE SCREEN TOUCHABLE BACKLIGHT POINT, AUTO WAKE UP/OFF**

- **【2.4IN SCREEN DISPLAY】** Want to know how fast you're going? It is called a wireless bike computer because it does so much: calories burned, distance, average speed, miles traveled, and more. bike odometer has 2 buttons, right button" mode", means find the desired mode(or parameter), left "set", means confirm this mode. bike speedometer real strength is as a full-featured recording tool in a compact size. Super larger format on current speed numbers sets odometer apart from the competition
- **【TOUCHABLE BACKLIGHT】** Speedometer for bike has a light screen in the dark, so you could read bicycle computer in the dark clearly. The manual touchpoint is on the top(printed lamp point). You could keep the backlight all the time as long as you touch the switch. Touch again to turn off this mode. You can read your data easier and clearer day or night. lare-free backlit screen introduces high-grade technology, which is highly visible in sunlight
- **【Outstand Product Performance】** Bicycle speedometer odometer with 18 functions gives you a better cycling experience. This cycling computer will automatically enter sleep mode after 5 minutes of inactivity, it will display your last cycling data when you press a button or simply ride. 2 CR2032 batteries provide up to a few months' runtimes (1 backup battery in the package). IP6 waterproof protection allows bike computers to work normally on rainy days.(Please do not put it into the water directly)
- **【EXTENTION BRACKET】** NOTE!!Our cycling computer comes with common bracket and extend one. The extended bracket only for 22.2-31.8 handlebar diameter. The bracket can extend your view while you ride, while the bike speedometer can reduce the need for you to look at the display with your head very low, can reduce the pressure on your shoulder and neck while making me

ride more comfortable. Putting a bicycle speedometer on a bracket also makes your bike look cooler and more professional when riding

- ♥Professional 7/24 SERVICE ♥All CYCLESPEED bike computer wireless series we sold are covered with a 6-month warranty. Please feel free to contact us if you have any problems, and we're more than happy to help. If does not work or something wrong may refer to the below detailed description.

Product Description

We are now ready to share it with you.

Bicycle speedometer compatible for Road bicycles, mountain bikes, folding bikes, and other common bicycles is compatible with this bicycle computer. This bicycle computer MAY NOT be compatible with some electric-assist bicycles. If the computer display, sensor, and magnet can be installed within the specified distances device should be fully compatible.

1. The bike odometer has a 2.4-inch FSTN display with a wide-angle view. Convenient and quick to record speed and kilometers without delay. Exact data.
2. Odometer for bicycle, developed from the imported smart chip, the wireless bike computer has a high product quality. The bicycle odometer wireless not only offers you innovative technology and a strong radio signal.
3. With touchable green backlighting switch, digital LCD display with 2 buttons.
