EVANSVILLE CONCRETE FLOOR COATINGS

All concrete floor coatings are not the same, so when you're ready to protect the concrete spaces in and around your home or commercial property in Evansville, choose nothing less than the best: award-winning products by TSR Icon Concrete Coatings!

Our family-owned business expertly installs premium chip system flooring, which is 6x stronger than epoxy and available in a host of custom color blends. Take a look at some of the work we've done, and you'll see why we're Evansville's top choice for:

- Residential Floor Coatings
- Chip System Finishes

RESIDENTIAL FLOOR COATINGS

Did you know that concrete garage floors, basements, walkways, and patios are prone to damage such as chipping, cracking, and staining? Our customized residential floor coatings guard against such damage—and look really good doing it! You'll have your choice of endless color combinations, so it's easy to find options that complement the other design elements in and around your Evansville home. TSR Icon Concrete Coatings can help you with:

- Garage Floors
- Basement Floors
- Porch & Patio Floors
- Pool Deck Coatings

CHIP SYSTEM FLOOR COATINGS

Our three-layer chip system finish can easily handle the heavy foot traffic of a busy warehouse or provide a gorgeous design element in an upscale salon. Business owners across Evansville also appreciate the fast installation process, which allows you to resume use of the space in as little as one day. A textured surface provides the benefit of slip resistance for added safety in the workplace.
