I have T-shirts that are warmer than this

I have several base layer thermals of various brands. This one is the least warm of all of them. I expected more from DTC. I do appreciate the thumb holes though. Overall it's not really worth the money.

Everything I have bought from Duluth has fit perfectly

I have numerous items from lined jeans, jackets and these under layer outfits. Everything has fit perfectly and are top quality. Will continue to do business with this company.

Performance Base Layer

The Buck Naked Performance Base Layer Shirt is everything I had hoped for and more. They run large so consider a size smaller for the best fit. I love the length of the shirt as it tucks nicely into the Base Layer Pants. Kelp me nice and dry next to my skin. I would have given a 5-star, except that I was hoping for even more warmth, but I'm not complaining as it was more than adequate for the task.

Another Warm Winter by DULUTH

Love These, wore for the first time today while it was 16 degrees on the high desert of Central Oregon and I was nice and toasty. Bought two pair and will use the rest of the winter. They are a tad big ordered an XLT could have gone with a Lg and been fine. they go great with the matching bottoms
