Best thing I've ever bought!

First impression is that this thing is really made solid! We all know how aggravating it is to have to pick all of your tools up at the bottom of the bucket after they jump off of the regular bucket hooks, this eliminates that! Also it will make your bucket feel way more roomy on the inside with the better organization. Definitely worth the money if you are serious about this job!

Lineman

Well thought out for the bucket tools.. Just don't quite sit flush with bucket but it works...price could come down some but wasn't my idea...

Great Product!

Great customer service and the product speaks for itself. Very well constructed and serves great purpose.

Exactly what I needed!

This works perfectly in my bucket, everything has its own hook so I'm not fumbling around trying to get to stuff stacked on normal bucket hooks. It keeps my bucket organized and easy to work out of. I definitely recommend this to anyone who might be considering buying one!
