PRODUCT FEATURES

Convenient Reversible Screen Door

With full-frame premium loop strips on both sides, you can turn the screen over to adjust the opening side, a super convenient reversible screen door. With the free left and right opening design, this magnetic screen door can meet two situations.

Handy to Open

The reversible door screen would be super handy to open since the seams are closer to the handle. The self-sealing door mesh is easy to go through even when you are holding things in your hands, and it can close instantly after passing.

Stronger Magnet Strips

Longer and stronger magnet strips are used to ensure better self-sealing performance. Premium cloth and double stitching workmanship are used to ensure the longer service life of this magnetic screen door.

High-Quality Fiberglass Screen

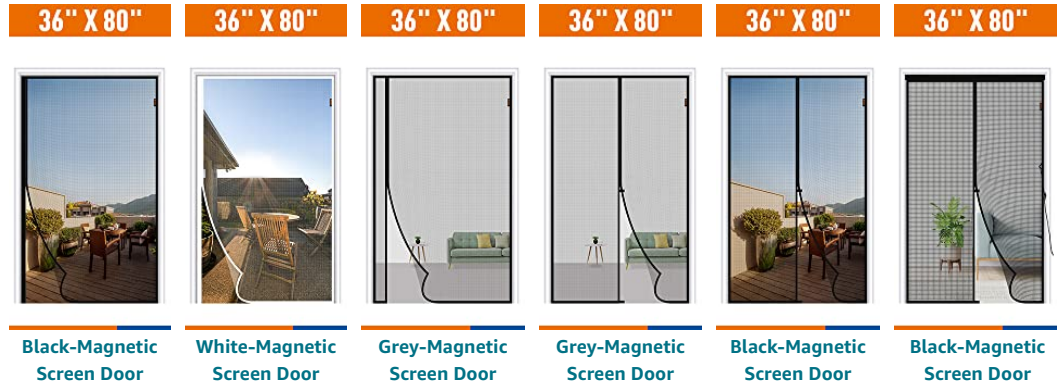

The sturdy screen mesh made of reinforced fiberglass is durable, tear-proof, well-ventilated, well-lighted, fireproof and corrosion-resistant. By applying the warp-weft weaving process, the mesh density is up to 18*16, and the mesh weight is 120 g/m².

Exquisite Workmanship

The seams of the door screen magnetic closure are covered with premium cloth and sewn with double stitching, which wraps the strong magnet strips well and ensures the sturdy screen door has a long service life.

Easy Installation with Hook Tape

The side opening screen door can broaden your view and keep your room well-ventilated and well-lighted to the greatest extent. It comes with a full-frame adhesive hook strip, thumbtacks and a manual, making the installation super easy.

★★★★★ Great price great quality

So much better than expected. Very easy to install and fits my apartment door perfectly. Adhesion is also very good, it survived through 2 tornadoes warnings. Great price too! The quality seems great, not cheap at all.

I had a different screen on my door - one that opened in the middle. It was always a little bit of a pain, and it always stuck to the metal door. This one opens over the door knob and makes so much more sense. It is therefore easier to open and more efficient at keeping out the bugs. It is also easier to unlock the door, as the key hole is more accessible. The screen itself is very heavy - I used the tacks to secure it. There are a few places along the magnet strips where it doesn't seal completely, but it's not bad - you can see in the pictures I posted. If I had it to do all over again, I would lift the screen so that it does not touch the ground at all. Right now, it touches the ground a little and that might prevent it from closing on its own. But it's not so bad that it would be worthwhile to re-do it.

★★★★★ Not sure at first, but WOW.

Reviewed in the United States on September 2, 2019

At first, I wasn't sure if this was going to work. My dog couldn't get used to the side opening and kept pushing at the middle. This caused the bottom edge to come apart from the mesh. I let the company know...sent them some pictures of the failure, and they sent me a new one right away. However, I left the old one up just to see what would happen to it. Turns out, the dog got used to poking her nose at the side and the original screen has lasted the entire summer without deteriorating any further. I honestly don't understand how that is possible since there is literally nothing holding the bottom together.

I would call this product well made. I like the side opening just because it looks better, and it does seem more functional that way when I tie it over to one side. There is a handy built in strap for that and allows it to be held out of the way when you don't want it hanging down.

The magnetic closures are strong and really do a good job.

I had a different brand last year and it didn't last the season at all. Just kind of fell apart. This one is a different story. It is showing no signs of wear other than what I already mentioned. I am going to leave

★★★★★ One of my favorite Amazon buys this year!

So happy with this purchase!

I'll start by saying, we previously used a regular sliding screen door with a doggy door built into it. Due to my one dog being afraid of the door flapping on her, we had the flap removed and it was basically a doggy sized hole in the screen for them. Then... we adopted a puppy.

My puppy is a terrorist. He had ruined so many things (notice the torn up edges of the table cloth on our picnic table... that's

from him. He ruined the screen door. Instead of spending \$\$\$ to replace, I figured I'd give this thing a

★★★★★ Perfect screen for our cat to get out to his patio

Reviewed in the United States on July 14, 2019

Size: Fit Door Size 38 x 82 Inch | Color: Black | [Verified Purchase](#)

Our cat really enjoys being outside but we weren't willing to cut holes into screens or walls to give him a door. We had been leaving the screen slightly open for him to get in and out but the flying insects

were having the same freedom. We didn't want a screen where the entire door had to be open to use it. This was a perfect solution. Our cat took a few pushes to figure out how to use but he has and now he loves his freedom and we love not having the flying bugs as well as having to keep the door wide open to get in and out.

Just perfect for my door. Instead of using the velcro provided , I decided to nail it down for better security due to having kids constantly open the screen. Measurements were perfect and the material is very sturdy and magnets are very strong and immediately attach after closing.

The last one I bought was what the advertise on TV. This one is soooo much better. Hook and loop tape in a role so you can do the entire frame of the screen. And tacks included to double secure the hook and loop tape. Love it!!

Just got it hung and already loving it.

I've had several center opening screens, but having the opening near the knob wii be really convenient when carrying packages and groceries. And the little pull tab and tie back are great touches.

For me, most of this type of screen are just a tad too narrow, causing the screen to gap open in spots. The extra inch width on this one is perfect, and no manual closing required.

And of course, it's nice to not have the closure blocking the center of the view.
