I am in my 60s but work a lot outside on fences and cow pens etc...I know it was one of the least expensive but I've already gotten my money's worth. Its light and the first battery is still going strong. Its easy to charge. It is so easy and quick when it is small branches or a fence post and I don't want to get the 16" out.

I need to cut some of the branches of the tree and it fulfill my need pretty good. It has charging indicator which shows the battery has been charged.Easy to use and handle. Protective gears are small for me did not work for me.

This is a cool tool! Lightweight, portable, and easy to use.

NOTE: The usual safety precautions one should observe when using a full-sized chainsaw must be stressed to consumers, though!! (Except that you don't need hearing protection)

This little saw just kicks booty! Had 3 major limbs come down 3 days after receiving the saw. We had all 3 limbs trimmed off and cleaned up without needing a battery change. Very, very light weight and simple to use.
