

Our Model

Educational Programs

As a nonprofit label based around education, we want to give every artist the proper tools and resources for a sustainable career. Our various creative programs target students in high school, college, and marginalized areas.

Artist Development

When artists graduate from our programs, we want to continue their education by providing learning opportunities that help them grow their passions through our workshops and mentorship programs.

Creative Community

Join our network of artists to meet new connections, find useful information, and access resources to further their creative growth. We also have plenty of fun together in the process!

Shows & Takeovers

Check us out at a local venue or festival stage near you hosting an educational workshop, social initiative, or full blown stage takeover with artists we know and love! If you have an event that you think we'd align with, please let us know and see what we can make happen!

Industry Connections

As we connect with more artists & industry professionals, we want to help our network find the proper people to work with. Let us know what you are looking for: visual designer, mix & master, videographer, tour manager, production gear, we may already know who to talk to!

Community Impact

Educational Programs

College-Level Courses

Have our network of artists instruct a class on music production, marketing, and event management. Fall 2022 Applications open Oct!

College Cultivation Clubs

Build a creative network, host workshops, and throw events at your school. Internships are available for qualifying schools & students.

After School Programs

Have us work with your school to provide creative instructors, resources, and projects for student artists in high-school and up.
