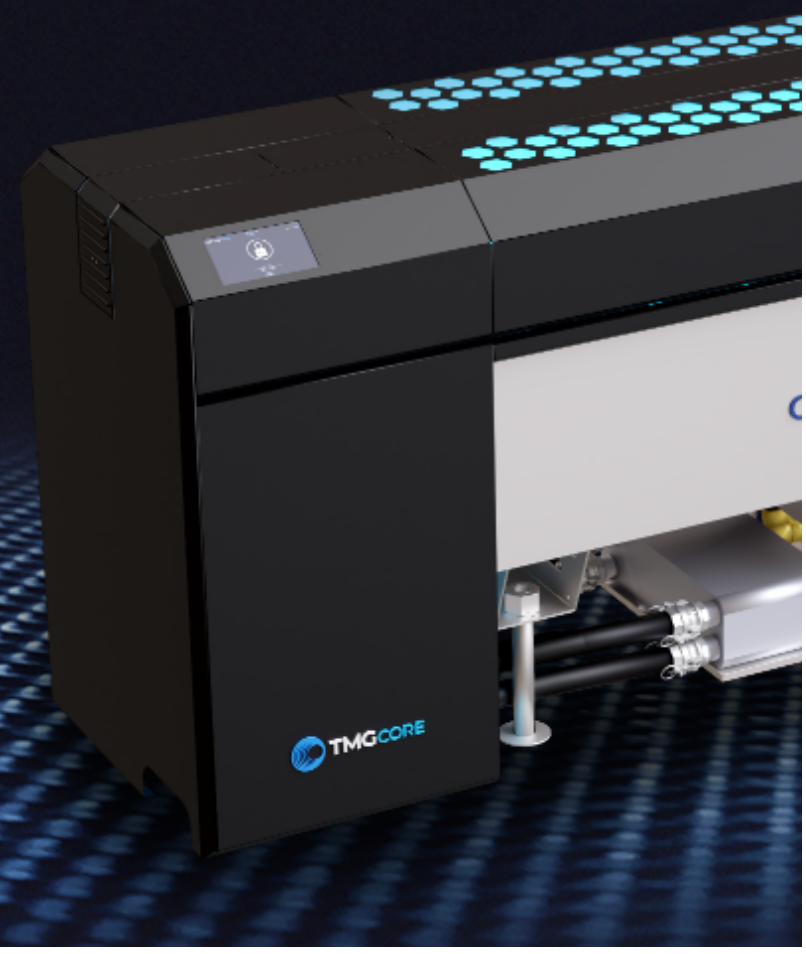
CryptoCore

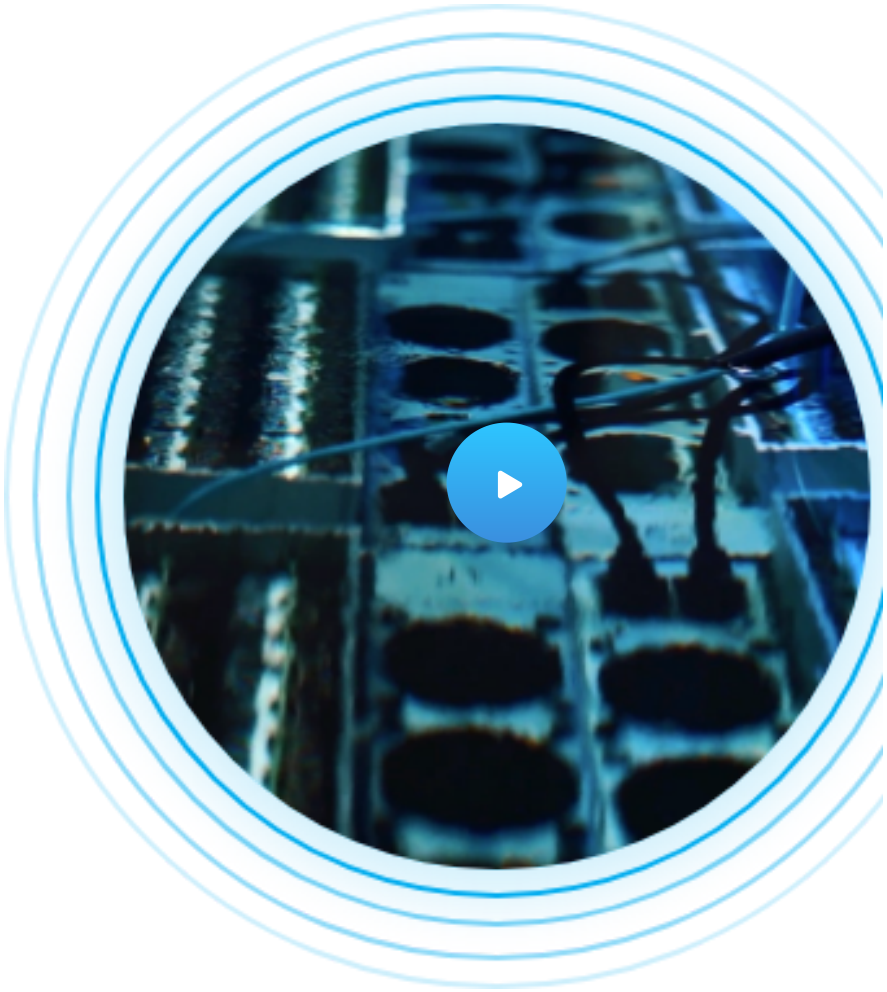
The future of crypto mining has arrived. Meet CryptoCore – powered by TMGcore. Our single phase liquid immersion cooling mining tank was developed to produce the best results in hash rates, energy usage, equipment longevity, and renewability.



Single-Phase Liquid Immersion Mining

So cool, so quiet… so much hash.

- Enhance the performance of miners without degrading the quality
- Up to 30% - 35% increase in efficiency
- Silent performance makes a loud statement in terahash earned
- Overclock up to 80% over OEM hash rates



Product Highlights

- Overclock up to 80% over OEM hash rates
- World-Class PUE of 1.007
- 28 Miner Capacity Cryptocore Tank
- Custom PDU for 140 to 200kw for superior mining capability
- Massive increase in miner lifespan
- 2 Megawatts of m than 160 Sq Ft*
