

The Bar

Clink strives to offer the most diverse drink options for its clients. We have 8 taps to mix and match beer, liquor and wine. Six taps are on the cooler side for beer, white and sparkling wine, and mixed drinks. Two taps are on the warmer side for red wine. We also have a bottle cooler to be able to carry just about anything you may need.

BEER

There are 6 tap spaces for an expansive list of craft beers to choose from. We will work with the client and the distributor to find the perfect combination of beers to have on draft. We also carry bottles and cans of any beers that may not be on draft.

WINE

There are 6 taps to share with beer to have white or sparkling wine on draft. We have 2 dedicated red wine taps as well. You can always order your favorite bottles to have on hand as well.

MIXED DRINKS

We will be able to offer batched cocktails on draft. We will work with the client to offer drinks that they want to have on draft. You can have up to 6 different cocktails on draft. We will offer this option in 2019.

We also offer a variety of non-alcoholic options on draft and in bottles and cans. We can offer kombucha, tea, craft sodas on draft. We are always looking to expand the variety. If you want something, just ask, and we will do everything to find and offer it.
