Total Clean Trifold Brochures:

Industrial Grade Performance, but it looks and smells like water.

TotalClean's Patented Iodine based formula is currently used by the 5 largest Waste Treatment companies in the USA to neutralize odors and protect the surrounding communities. It's important to us that Total Clean not only excels in performance, but it does so using a completely natural non-toxic and non-VOC formula.

Simple & Safe Ingredients: Water, Iodine (I2), Cuprous Iodide, and Proprietary Surfactants.

As you may have discovered here at HypoAir, we're BIG fans of active air purification. However, we know that this is just one part of your goal to have a more Natural Home. Instead of using our air purification technologies to remove VOCs produced by cleaning chemicals, we would much rather you reduce or eliminate those sources of VOCs in the first place. Our hope is that you can reduce your use of harsh chemical cleaners in your home by 90% or more using Total Clean.

Our Natural Home Collection

We think your indoors should be more naturally like the outdoors.

Total Clean is part of HypoAir's new Natural Home Collection. We've invested in developing our own solutions like Total Clean or found partners who are leaders in innovating practical methods to overcome a variety of natural home challenges. We focused our search on products that solve existing issues that we hear come up a lot with our customers and/or home improvement type solutions that make their homes more comfortably natural. We also focused on products, solutions and ideas that are attainable for almost all of our clients. These are simple things you can do now.

Detox Your Home

How can you use Total Clean?

Higher concentrations of the Total Clean Formula will result in increased performance. If you use the 32 oz. Ready to Spray bottle, you may need to soak tougher odors or stains. To refill your 32 oz. bottle, add about 4 oz. of Concentrate and fill the rest with water for the same standard use (~10% power). For some applications, using more Concentrate (20-40%+ power) will be needed to achieve your results. For example, you can even add a small amount of 100% Pure Concentrated Formula to your toilet bowl or the detergent drawer of your washing machine. For more detailed information please visit us at: www.HypoAir.com/TotalClean

Pet Odors
Try on pet accidents, beds, litter boxes, spray in the air near pets, and more.

Carpets
Use Concentrate in carpet shampoos or spray directly on stains or odors.

Food Spills
Try on stains and food odors on high chairs, car seats, furniture, and more.

Clothing
Spray on stains or odors on any water safe fabric. Scrub and let dry.

Shoes
Try soaking shoes, athletic gear, or bags with the spray or diluted Concentrate.

Bath Tubs
Spray on tough bathtub stains or odors. Use scrub brush after spray.

Bathrooms
Try cleaning toilets with concentrate or spray directly in the air to remove odors.

Bedding
Spray on bedding, slippers, closets and more. Use on odors or stains.

Trash
Spray into trash bags, empty trash cans or diaper pails for odor control.

Countertops
Use on any water safe surface. Kitchen counters, floors and more.

Appliances
Use on stove tops, washing machines, dish washers, and refrigerators.

Walls & Glass
Stains on walls, spray and wipe glass or mirrors, and more applications.
