Audits

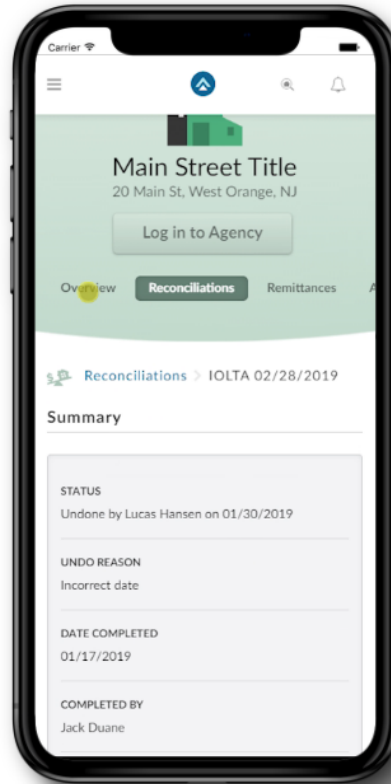

Reduce the time and cost of audits through increased coordination on our auditing platform.

Auditor System of Record

For the first time ever, auditors can have seamless workflow tools built specifically for the title agent audit process.

Secure Data Connection

Allow your agents to share sensitive bookkeeping data through secure messaging and audit integrations in their software.

Automate Fraud Detection

Receive notifications when critical issues are surfaced in reconciliations. Simplify order audit selection through tools that spot accounting discrepancies.

Differentiated Services

Guide your agents through the audit process step-by-step, reducing manual data entry by importing information directly from their software.

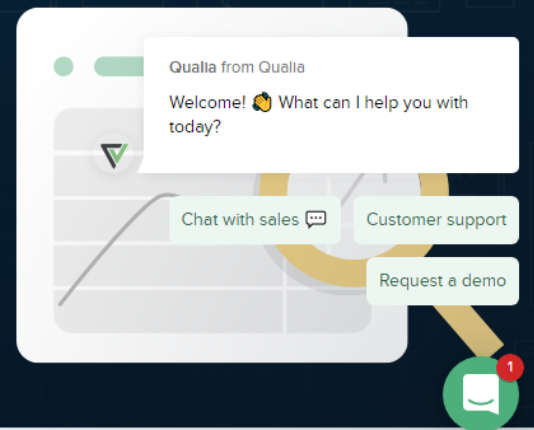

Reconciliations

Automated Collection

Automatically collect reconciliations from your agents as they're completed. Make it easy for your agents to stay compliant.

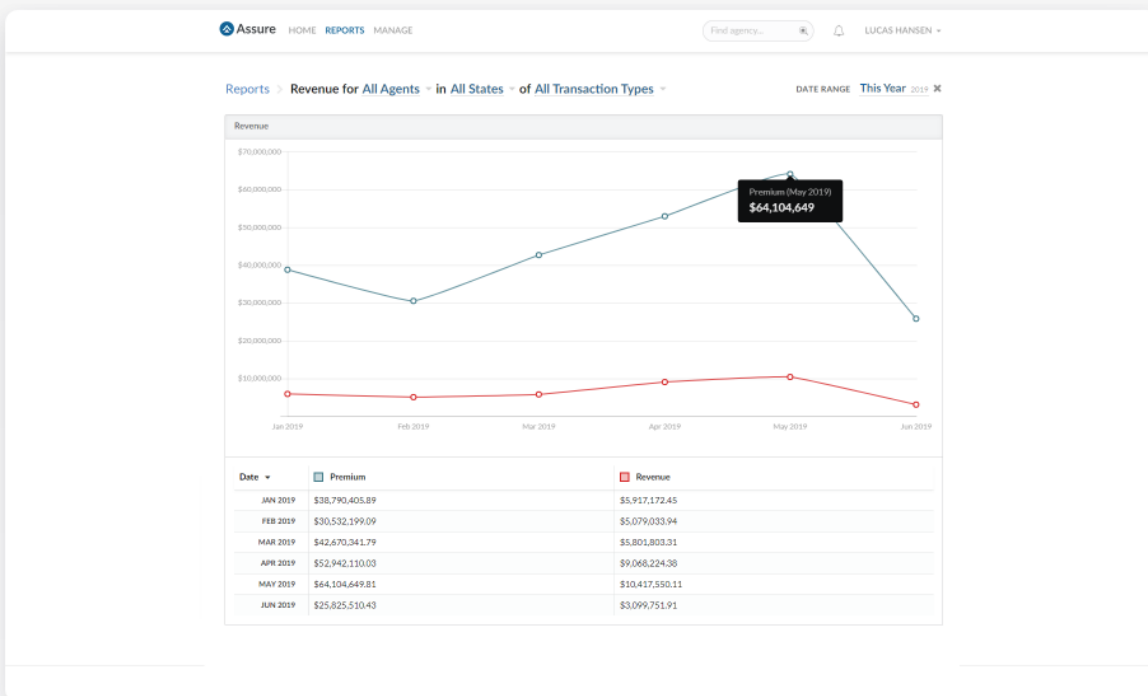

Real-Time Review

Evaluate each completed reconciliation through artificial intelligence and get real-time fraud alerts.

Reporting

Improve the performance of your agency divisions through robust reporting and forecasting built with title insurers in mind.

Projected Revenue

For the first time ever, forecast policy generation by your agents before remittances are delivered.

Outstanding Revenue

Increase the efficiency of your compliance team with reports that highlight expected vs. actual remittance collected.

Product Utilization

Track policy volume by agent, region, or product type. View heatmaps that highlight where your business is increasing the most.
