ABOUT NEWTON

Mission-driven engineering

Newton is an ISO 9001 / AS9100D certified engineering and end-to-end product development company committed to furthering the aerospace industry with innovative, reliable solutions, and support.

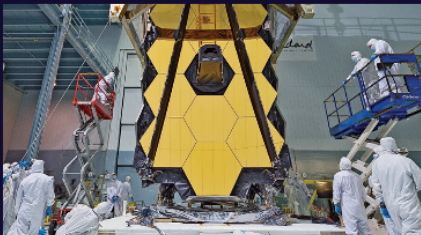

We create products, technology, and mission-critical components that advance science, exploration, and humanity.

To achieve **your mission** and help you succeed, we transform ideas, needs, and specifications into elegant hardware that meets or exceeds requirements, **right from the start**.
