DESCRIPTION

[UHD 4K Webcam] Compared to the existing 1080P or 2K webcam, this web camera for PC has an image up to 4K, which can deliver ultra high definition images, videos with a resolution up to 3840 * 2160 and fluid 25 frames per second, offer smoother live streaming and excellent video quality for conferences, online lessons, video calling and gaming, etc.

[Built-in Microphone & Privacy Cover] Built-in dual stereo microphone with auto noise reduction, the PC camera can capture sound within 1.5 meters when working. Even in noisy surroundings, you can capture the sounds purer and clearer during video time. The webcam cover can prevent network hackers from spying on you. It can protect the privacy and provide security for individuals and companies.

[flexible installation options to adapt to any setting] get a perfect angle. The webcam with magnetic attraction is installed on a comfortable display or wall, and can be tilted up or down, or left or right, so that the webcam can be installed in any desired position, which is easy to carry and easy to install.

[Widely Compatibility] The web camera is compatible with Win10, Android, Mac OS, Chrome OS, Linux etc. Supports major live broadcast platforms. You can easily use it for online teaching, video call, network call, portrait collection and many other fields. (Note: The minimum system must be windows 10 or higher, otherwise 4K resolution cannot be used)
