It is really good for your ears because of its piano music but you have to be a quick clicker to be good at this app. You can watch ads to play it more if you lose, so please play this app because it is so fun. You can win gems and money to buy more songs to play. You can also change the theme color of the piano tiles if you want to, there is yellow, blue, purple and etc. Thank you for looking up this app and please play this with me.

This is the best game it has a lot of songs. you can play the songs again and again. Some songs are easy others are hard. Also you do not start with any song you like you have to unlock them. This game made me like new songs! 100000/10

It doesn't work at all I try pressing the notes and they don't work. It bugs out a lot in the middle of the songs as it may sound like it's just my device but I've played other games of magic tiles and they work perfectly fine. Please fix this game.
