**Product Description**

**BODEGA Professional 12V Car Refrigerator, it is a good companion and car fridge in your life**

### BODEGA Portable Car Refrigerator Brings happy for your Travel

A car trip is exactly needed after a long period of lock down. It could be the perfect relaxing entertainment when hardwork, housework, farm work or babysitting etc., finished. You might plan to strike out on a camping trip, enjoy the beach, or maybe have a picnic in the park. However, trips could be so boring without food and drink. Which means a cooler to keep your food fresh and beverages chilled is what you need.

This is where our story started. BODEGA focus on designs and manufactures car fridges for RVers, van owners, overlanders, truck owners and the outdoor communities to keep their food fresh and beverage cold on the road.

#### BODEGA car fridge advantages:

- Convenience of APP control
- Dual Zone independent control
- Large capacity 53 Quart (50L)
- -4°F (-20°C)-68°F (20°C) Temperature Setting
- Wheel, retractable handle, USB socket and Inside Led Friendly Design
- Battery Protection H/M/L, Max/Eco Cooling Choice
- Can be use at home or Car, Support 12/24V DC and 100-240V AC.
- The partition in the middle can be taken off, to be one big zone.

**Convenient APP control**

Compare with normal Car Fridge

Our BODEGA car refrigerator support smart WIFI connection, App control

You would be convenient to follow the development of the refrigerator all the time when driving

Please noted below point:

- If you need to store food (What is Sensitive to temperature) when traveling, we recommend that you pre-cool the fridge before you go to travel.
- Left Zone Temperature Setting can not be lower than the Right Zone. It is recommended to use the left side as the fridge area and the right side as the freezer area.
- Left Zone Start Cooling First, then the Right Zone Start, Detail is attached on the cooling time.
- After the left side reaches the set temperature, the right side begins to cool down. It is recommended not to set too low temperature on the left side.
- When inserting the middle clapboard, the lowest temperature in the left zone can only be set to

**Dual Zone (Freezer and Fridge) settings, removable baskets and middle clapboard**  
Packaging includes:

- Portable Refrigerator \* 1
- Cigarette Lighter Connector \* 1
- Wall Plug \* 1
- Wall Plug Adapter \* 1
- Dual Zone Basket \* 1

**Wheels and retractable handle friendly design**

BODEGA car fridge is perfect for outdoor activities. The stretchable handle and off-road wheel increase its portability, and girls can also carry it easily.

**Anti-shaking for extreme off-road conditions**

With good compressor technology, this portable freezer can still work great even when you spend a lot of time off roading on bumpy roads with steep inclines and declines.

**USB Socket**

BODEGA car refrigerator has a USB interface design, so you can charge your mobile phone at any time. With the use of batteries, you can make your refrigerator as a mobile power source.

**Anti-shaking for extreme off-road conditions**

With good compressor technology, this portable freezer can still work great even when you spend a lot of time off roading on bumpy roads with steep inclines and declines.

**HOW CAN I RUN BODEGA PORTABLE FREEZER?**

- 1) You can run this portable freezer fridge with 12/24 V DC power on various vehicles, such as SUV, Truck, RV, Camper, Van, Boat, etc.
- 2) BODEGA car refrigerator running with Solar panel Power station ( 240W / 500W/ 1000W )
- 3) BODEGA car fridge also working on 110~220V Home outlet, wall socket.

**Note: Products with electrical plugs are designed for use in the US. Outlets and voltage differ internationally and this product may require an adapter or converter for use in your destination. Please check compatibility before purchasing.**

paul

★★★★★ Happy truck driver.

Reviewed in the United States on November 28, 2020

Size: 53 Quart | Color: blue | Verified Purchase

As long as it plugged in, it keeps the temperature where I set it. When unplugged, it changes very fast. I'm a truck driver. Sometimes I need to unplug to run something else. Overall, I love it. And would recommend this to anyone traveling.

Frances Aberin

★★★★★ A Camping Must!!!!

Reviewed in the United States on January 11, 2021

Verified Purchase

I was super excited when it came. My husband and I go camping a lot so having a portable fridge is a definite must. You no longer have to worry about ice melting, or if the dirty ice water will get into your food. It is taller than I had expected but it wasn't that big of a deal since it still fits in our Subi Outback. One thing that I love is that it's versatile. You can keep it as a separate freezer and fridge or you can have one solid fridge or freezer by removing the center divide. My husband loves his ice cream so we keep the divider in place so that he can have his ice cream while camping which we were never able to do with a regular cooler. I also like the fact that I can control the settings on my phone. When we went camping with it for the first time we cooled it down by plugging it into our wall. While camping we hooked it up to our portable power station so that it wouldn't drain our car battery. Your car battery is another power option

to keep your fridge running. You just use the lighter adapter to power it up. We also use the fridge when we host people. Instead of using a cooler we take the center divide out and pile it up with drinks. I think this is the best camping investment we ever made!!!!

 Nads

★★★★☆ **Great refrigerator. Set your expectations appropriately.**

Reviewed in the United States on July 8, 2021

Size: 53 Quart | Color: blue | **Verified Purchase**

I read all the mixed reviews and wanted to make my own comments because you really have to set some expectations here. The dimensions are listed. It's too big because you didn't pay attention. No where in the description does it say it has a battery....so it doesn't come with a battery. Not sure why people are complaining about the noise. Certainly, its much quieter than any road noise. Bugs at night are louder. This does suck if it's in direct sunlight. So does my \$3000 refrigerator in my kitchen. It does take a bit to cool. If you put 30 warm cans in this cooler, it's going to take a bit. So does my kitchen fridge. The divider is worthless and so are the baskets. If you are type A personality, staring at the phone to see the temperature fluctuate between zones will give you a hemorrhage. The temperature is off on my unit by about 7 degrees. I understand this and adjust accordingly. On ECO mode, it won't freeze anything on hot days. It doesn't tell you that anywhere. Even with ECO mode, I still have to use a dedicated battery for weekend camping trips or use solar panels with my truck. Its never been an issue for that battery to last 3-4 days. If you take this cooler on a 90 degree day and plug it in for a 10 minute trip to the grocery store and expect it to keep your ice cream frozen on the trip home, you are expecting too much. I normally plug it into the wall when planning to go to the grocery store on 90 degree days to give it a head start and then plug it into the 12 volt in the truck. Works perfectly. I LOVE this thing.

LazyShopper

★★★★★ **Took a chance on a new product**

Reviewed in the United States on January 6, 2021

Size: 53 Quart | Color: blue | **Verified Purchase**

Worked perfectly on a cross-country trip.

Great functionality - one of very few with both freezer and fridge zones, wheels to roll on (which are needed, since a bit on the heavy side).

I also have a thermoelectric unit, which is good for cooling drinks. But that is a weakling compared to this compressor unit - which can do the freezer function also, has more cooling capacity, is usable in warmer ambient temperatures - basically a portable kitchen fridge.

Simple intuitive display/interface, but watch out for accidentally turning it off by placing something on the touch-sensitive controls area.

Seems very well-made, but extended usage will tell more.

Nice product! It's cold enough to freeze liquid, can keep foods cool and it's also not that big, which is just the right size for my car. Also it's not noisy when driving my car and The commands are easy to use. Once again, nice product that costs a fairly good price.

★★★★★ **Updated Review - Flawless performance over 14 day trip**

Reviewed in the United States on June 19, 2021

Size: 53 Quart | Color: blue | **Verified Purchase**

The lids black rubber seal does not seat against the sealing ridge on the refrigerator. One picture shows the water collection on the outside of the seal ridge. This is allowing warm air to enter to refrigerator, causing the motor to run more frequently that it should. Also, the water starts to accumulate and drip down the outside of the refrigerator. As you can see, all the way around the lid, I can insert the paper up to line #4 until I get to the part where the seal does not meet and then the paper slides all the way through, so this is large gap. So far, they vendor has done nothing. Language barrier is a real problem in getting them to understand the problem. Will post updates.

UPDATE: Seller has contacted me and requested I detail the issues so engineering can address them. They authorized return of this unit and will replace it with another. I find it refreshing that they are interested in addressing the problem in future productions.

UPDATE: 14-day trip through Washington, Idaho, Wyoming and Utah in 90 to 110 heat. Vehicle 2005 GMC 3500 with dual 12-volt batteries. During this trip, we were on rough dirt roads, backwoods campsites over 3,300 mile trip. Never once had to worry about heading to town because we needed ice, the refrigerator

★★★★★ **Excellent for price point**

Reviewed in the United Kingdom on April 2, 2022

Size: 38 Quart | Color: blue | **Verified Purchase**

It does exactly as it says, fridge stays cool, freezer stays frozen. The interior light seemed to be a gimmick BUT on the first night out it really did light up the interior so I could see what I was getting out without the need of a torch.

Having said all that, I've seen reviews of similar units on YouTube where people have complained/returned units as they didn't stay at the exact set temperature. Come on people! Don't you know how these things work? They cool down to set temp then switch off. They gradually warm up by a few degrees then switch on again going down to set temp... repeat.

I went car camping on a hot weekend, took frozen stuff in freezer, including ice cream, and perishables in fridge, inc milk.

Freezer set -15°C, fridge set 5°C.

★★★★★ **Great portable fridge**

Reviewed in the United Kingdom on July 16, 2022

Size: 38 Quart | Color: blue | **Verified Purchase**

First of all this is despatch directly from the seller. I was in a hurry for it since I wanted it for in the car and needed it quickly. Delivered by DPD in three days. I was very impressed.

The unit itself I was a little sceptical of. You may have seen units for years that are car fridges but they don't really work very well. This is totally different. On the mains supply it took 40 mins to cool to -7c. And it really was cold. The quality of the unit is great. It's quite heavy but that's to be expected. The phone app is quite cool and easy to use too.

I haven't connected it in the car yet, but to be fair I got it for use on the go in hotels etc and the power supply steps it down to 12v anyway.

All in all I'm very impressed.

☆☆☆☆☆ **Didn't work for me, maybe a dodgy return?**

Reviewed in the United Kingdom on December 7, 2021

Size: 38 Quart | Color: blue | **Verified Purchase**

This looked like a good opportunity to get a portable camping fridge without paying Dometic prices. Well it couldn't maintain a stable temperature and the lowest it could go was -8 and not the -22 it claims. I also noticed it struggled on 12v. I ended up biting the bullet and getting a Dometic CFX3 35 and wow what a difference the Dometic is everything I could hope for. I guess you get what you pay for!!

★★★★★ **Lo mejor en frío que he encontrado.**

Reviewed in Spain on May 4, 2021

Size: 53 Quart | Color: blue | **Verified Purchase**

Por ahora no puedo ponerle ninguna falta. Llevo 20 días con el conectado y perfecto. No he comprobado si realmente llega a los -20.. pero congelar congela sin problema. Tenía pensado comprar unas placas solares para no tener problema con las baterías, pero no hay problema alguno... lo dejo conectado toda la noche y por la mañana el coche arranca sin problemas. Por ahora un sobresaliente.
