★★★★☆ **They break when separating**

Reviewed in the United States on July 10, 2022

Size: 2.3oz Mini Dessert Cups | **Verified Purchase**

Please, look for a different ones. I didn't pay attention to the reviews that said they break when separating and it is true, lost about HALF of them trying to separate. And believe me it was done nicely and delicately and still broke plus most of them had been cracked already before we even separated. It was very sad to have almost half of the guests not take a shooter.

The only issue I have with this purchase was that several of them were completely cracked. Luckily I had extra cups from a previous purchase order.
