Tastiest alternative to coffee

I loved finding POW because coffee substitutes weren't cutting it. I had success when I stopped identifying as a coffee lover and quit drinking coffee-like drinks. I like the sible sweetness of the monkfruit. This has been a great new habit for me.

"Definitely Magic! I feel clear and grounded."

The magic matcha powder is absolutely delicious and really works for energy - I feel clear and grounded. It tastes amazing with some frothed oat milk (the power whisk is my new fav tool). 😊

"Incredible start to the morning! Gives me clarity and focus."

I have been using Pow for a month and it has been amazing! Pow wakes me up and gives me clarity and focus! I have gone from a heavy coffee drinker to one serving of Pow in the morning and one cup of coffee in the afternoon.

How to drink

Turmeric Magic Matcha can be used in 100's of ways, but we have a few favorites.

You can make a latte, tea, or add to any smoothie. Use Magic Matcha as a coffee replacement, or even along side your coffee.

We always recommend using plant milk. Even brewed as a tea, a splash of plant milk will round out the flavor.

Latte or Tea: Making a latte is our flagship recipe. Add 1-2 tsp of Magic Matcha to 8-12oz of water, plant milk (hot or cold), or both. Blend or whisk and enjoy!

Magic Shot: Have along side your morning coffee, instead of your second coffee, or as an afternoon boost. Use 1 tsp of Magic Matcha in 4-6oz of water or plant milk (hot or cold).

Smoothie: Add 1-2 tsp of Magic Matcha to your favorite smoothie, bowl, or oatmeal.
