**Great looking bike!**

This is a great looking bike once we were able to get it put together. I had to contact Walmart and Hyper bicycles initially since the item came missing a seat collar and one of the parts that arrived with the bike wasn't the correct part. After Hyper sent the missing and corrected pieces, I was able to put the bike together with minimal issues and it looked so awesome! The color is black and red and the handles have metallic red colors on the end. This bike also comes with a kick stand. The tires are pretty thick and bike feels sturdy overall. Make sure to tighten the seat collar well or else when your child sits on it, it may slip down. The brakes feel a little tight so we may try to see if we can loosen the tightness just a bit so that i...

**Nice bike**

Took a but longer to assemble than other bikes I've had but it's a nice bike regardless. The brake system is the difficult part of assembly. One of the brake handles has two cables going to the back tire & the other has one cable to the front brake. My son loves it! It also has the pegs with it. Over all it's a great bike, comparable to mongoose.

**Super cool bike**

This BMX bike is a classic. It has the nice wide handlebars, a highly adjustable seat height and handle bar height that can be adjusted for anyone from my 10 year old son to my full adult 5'8" frame. The assembly of the handle bars and rear brakes is a bit tricky. Once you realize that the two circular discs work together to pull in the rear brake line allowing a full 360 degree rotation, the installation becomes a snap. The front brake required me to install the brake line from bottom to top rather than from top to bottom. This was not very apparent from the instructions. The bike itself is so much fun to ride. It has a smooth transfer of power to the wheels and the bearings are so good that you can have plenty of time to perform tricks wi...

**A kids dream bike**

This 20in Boys Spinner BMX Bike is every kid's dream! It comes partially assembled and held together with zip ties and cardboard with tape. It does come with an instruction book. Everyday tools are required for assembly. It was pretty simple to assemble, although as a little side tip, I had to look up a video on how to get the wires for the brakes assembled on the front. It is a sleek, modern looking bike. My kid loved it and how easy it was to maneuver on a sidewalk and also grass. The pedals work great, the brakes work wonderful. Be sure to check the air in the tires, as you need to add more to be correct.

**Hyper bicycles 20in Boys Spinner BMX Bike, Gloss B**

This Hyper bicycles 20in Boys Spinner BMX Bike, Gloss Black is beautiful! Beautiful probably isnt the right word for a bicycle, but it really does fit. I picked this bicycle for my step nephew. He had a bicycle but it was to small and when I seen this one I knew it would be perfect for him. The child has had a rough year and I'm soooooo very excited for him to see this shiny black bicycle that is being given to him in love for no special occasion at all! The bicycle itself is shiny black and looks very well made and has a sporty look. There is going to be one very happy little boy!
