SHADOW REVIVE WRIST SUPPORT OS

\$20.99

Sold Individually

The Shadow Revive Wrist Support allows you to keep going after a crash and will help prevent re-injury while riding. Made with a 4-way stretch elastic, with a Stabalite buttress support to aid in preventing hyperextension. We added an adjustable compression strap so you can customize the amount of wrist support needed. Ergonomic shape allows free finger and hand movement, while still being slim enough to fit under gloves. Topped off with a silicone palm print for max grippage. Provides optimal support for extending your ride.
