

Our mission is to empower individuals with trusted information,

affordable access and convenience for their reproductive & sexual health.

PEOPLE FACE MANY BARRIERS TO HEALTHCARE TODAY.

1 in 4

Women delayed or went without healthcare due to high costs.

19.7M

Women live in contraceptive deserts.

22 days

Average number of days a new patient waits to see a primary care physician.

We are a team of doctors, public health experts, designers, engineers and builders committed to changing the face of healthcare, particularly for underserved communities.

Whoever you are, whatever your story — your health is important to us. All gender identities, sexualities & pronouns are celebrated at Twentyeight Health.

BEDSIDER

Giving back

With every delivery you receive, you're supporting a movement to make women's healthcare more accessible and equitable for all.

We donate 2% of our revenues to nonprofits, the National Institute for Reproductive Health (NIRH) and Bedsider (by Power to Decide), that work to improve access to reproductive and sexual health care.

We want to do our part to help those who need affordable, supportive, judgement-free care most.

Meet our founders

Leading a DTC skincare & makeup startup, Amy was inspired by the focus on deeply understanding her customers. She wants to bring a human-centric approach to healthcare, putting the patient first. She is passionate about gender equity in healthcare, the work place, and beyond.

Prior to being the GM of a DTC skincare startup, Amy was a consultant at Bain & Company. She holds a Bachelor of Commerce from Queen's University in Canada and an MBA & Master of Public Health from University of California, Berkeley.

AMY FAN

Bruno worked for 4 years helping the Gates Foundation on increasing access to healthcare, with a focus on Family Planning, HIV and Malaria. He is extremely passionate about increasing access to healthcare – and thinks there is still a lot to do to achieve gender equity and make healthcare more accessible, affordable, and convenient for all.

Previously, Bruno was a Principal at the Boston Consulting Group and is an electrical engineer by training.
