

The morning after pill, just in case.

Get the morning after pill, New Day™ (equivalent to Plan B One-Step®), that reduces your chance of getting pregnant after unprotected sex.

New Day™ should be taken within 72 hours (3 days) of unprotected sex and the sooner you take it, the more effective it is at preventing pregnancy.

Get one to keep at home, just in case. No prescription necessary.

ORDER NOW

How it Works

New Day™ is an emergency contraceptive that safely & effectively helps to prevent pregnancy before it starts. It has the same active ingredients as Plan B One-Step®.

Our doctors recommend having emergency contraceptive handy at home, in case you forget to take your birth control pills or if a condom breaks. ***If you need emergency contraception right away, our doctors recommend that you purchase the morning after pill at your local pharmacy.***

ORDER NOW (\$35)

New Day™ works by delaying the release of an egg from your ovary so that the egg can't be fertilized by sperm. Emergency contraceptives do not interrupt nor stop an existing pregnancy.

**Disclaimer: please refer to product package for full details including directions, ingredient information & warnings.*

It is a **backup** method of preventing pregnancy and should not be used as regular birth control. For more information about the morning after pill, explore our [Sex+ Health Guide](#) and our article about [the morning after pill](#).

message the doctor from your [dashboard](#).

"Our goal is to make sure you feel comfortable with your reproductive health, even if the unexpected happens.

That's why in addition to our birth control options, we also have emergency contraception like the morning after pill.

If you ever need it, we're here for you."

DR. KARLA ROBINSON, MD
