I'm going to be honest I really did not have high expectations for this goblet but when it arrived I was really amazed by the weight and all the detail on the outside of the goblet. It is a very beautiful piece and I have already purchased a second one.

This goblet will make you feel like you've just stepped into game of thrones. The level of detail and quality is insane. The cup feels like a relic it's heavy, it's really reflective, it feels ancient like a museum piece. It even looks as though it was hand forged. The quality really is next level. I don't know what I was expecting. I knew it was going to be nice but I didn't know it was going to be this nice. I wish it came in a set of two because the photo can easily mislead people into thinking it's a set. But other than this that this is sublime. I will be drinking everything out of this cup. You literally feel like a Greek god holding it. For the price you pay this cup will last an eternity. Very much worth every penny!

This is a heavy, well balanced, goblet, chalice, grail. Drink king vessel in yellow metal. Very or neatly decorated with a largely floral motif. which is not particularly traditional to any tradition though it is evocative of medieval or fantasy , pagan type ornamentation. I'm personally not really fond of drinking from metal vessels but this will be great for many fantasy settings, altar pieces , romantic toasts etc. This seems to be very well made and strong.

This Vintage Chalice Goblet | 1x Royal Wine Cups of King Arthur - Renaissance Medieval Gifts is the first time I've been satisfied with the vessel that I use to imbibe myself with. Finally, I have a goblet fitting my overly inflated self-worth.

My only disappointment is that this cup is on the smaller side and doesn't hold that much liquid, so I find myself constantly throwing it against the floor and demanding "ANOTHER!" to let the beverage wench know that I need more.

The goblet looks royally grandiose with the bling bling of the gold really making this look and feel like something fit for royalty or someone who thinks they are.

Overall, this is truly a chalice fitting someone of my inflated self-worth, now I can imbibe myself whilst I rule over my domain, occasionally giving belly rubs to the particularly good doggos who will now need an upgrade of their water bowls, so they don't believe themselves to be the dogs of a commoner. 5/5 stars.

★★★★★ **Beautiful brass goblet.**

Vine Customer Review of Free Product ([What's this?](#))

I love the design of this, among my friend group and by extension my drinking buddies, we have always had an inside joke about a holy grail cup, and man this is the exact thing I have been looking for, solid weight, comfortable usable interior, stunning decorative piece you notice right away, this is everything I have been looking for in a drinking cup. I love that this is also real brass, it reminds me of my childhood as, my father had a hobby of collecting and cleaning brass trinkets and utensils like this, so I know how to care for an item like this, and thoroughly enjoy its presence. My only complaint is on the inside there do appear to be black tarnish rings almost like parts where machining may have dug pits into the metal, these do not appear to be a major problem just visually a mark of quality.

Superb quality and build. This cup really has amazing detail and does not feel cheap at all. Most prop glassware like this tends to be of flimsy and cheap stamped metal, this is definitely not, its got weight and is very solid, could definitely survive a drop or ten.

Be the life of the party and drink from a goblet!

Vine Customer Review of Free Product ([What's this?](#))

I was expecting a small little piece for my shelf to use as décor, but after inspecting this and holding it. It feels real! Fits in my hand like I should be using it. I mean 7oz isn't much when my soda is more than twice that. I had to share a picture of it in my hand to give you the visual of how well it fits. It really does bring back the good feeling when they took pride in what they made! Back when putting designs on everything was the norm! Excellent job on making this!
