# Institute Medicus Healthcare Reform

Affordable healthcare is compassion, and our blog is discussing this.

The majority of voters want to change (fix) the US healthcare system

**Healthcare legislative reform**

Laws prohibit Americans from receiving internationally recognized standard of care.

## Podcast No No Nanette™ talks about problems, and fixing American healthcare

- Medical malfeasance has a foundation built on political campaign donations
- WI politicians weaponized oversight power to annihilate foes of their donors

Donate

- Providers need legal standing against medical malfeasance of powerful political donors
- Healthcare cannot be at-will employment: providers have no security for patient safety
- Those who intentionally harmed patients must be forever barred from healthcare
- Overpriced healthcare should be legally regarded as harmful to households
- Bar from healthcare forever: oversight abusing power by denying Constitutional rights

# patient harm and illegal drugs.

Join our blog  
to discuss  
quality  
revamping  
American  
healthcare

After my skin cancer patients died, I became a witness for the United States federal investigations; they knew my patients were specifically targeted for harm, and I

Donate

helped identify other patients at risk of intentional patient harm. It remains unfathomable that **state oversight dismissed what was obvious to federal investigators (and me).**

Fixing this is easy: tell the truth and provide solutions.

My opinion: those involved cannot continue in American healthcare. Some might say I lack diplomacy, but polite words cannot accurately describe the medical malfeasance I witnessed.

There is also no diplomatic terminology to describe those who intentionally harmed and then killed my patients.

[Donate](#)

Instead of being perpetually angry, I have identified legal changes needed so doctors (and others) can do their job of ensuring the health and well-being of patients and their families. Please join in the blog discussions, intended to openly debate how best to make quality healthcare affordable for all Americans.

Also, please bear with me since I am learning to build this blog and website as a newbie to web design. Please also consider donating to the cause.

Fake skin cancer surgeries are patient endangerment

and fraud: Dr. Jeffrey Hall,

Nurses created clinic chaos  
and obstructed patient care:  
Kelli Eklof RN, who  
violated JCAHO violation

The narrative, that her  
concerns were part of a  
paranoid delusion, was  
criminally falsified:

When Dr. Nanette Liegeois  
tried to talk to Dr. Hall about  
the patient safety concern of  
his sham cancer surgeries  
and obstructing nurses who  
made clinical care chaotic,  
she was immediately  
suspended, and Dr. Hall  
mandated a mental fitness

for duty exam. Dr. Liegeois learned in 2020 that Dr. Jeffrey Hall and hospital nurses falsified “evidence” for her exam: A falsified incident report omits a police report and contradicts the facts and statements made to 911 dispatch, and V.P. Wendy Young covertly involved. These concerns are summarized in complaints.. Wendy Young, Anita King, and Jennifer Kahl.

Her own medical emergency (parotid stone) was “misdiagnosed” by Dr. Ryan Bourdon to make it appear her medical issue was just a

delusion and V.P. Wendy Young RN was covertly involved in the ER “misdiagnosis.” Dr. Jeffrey Hall poisoned a psychological fitness for duty exam with criminally falsified evidence and improper patient care allegations. Dr. Johnathan Hung performed the mandated fitness for duty exam and prevented Dr. Liegeois from having the falsified “evidence.” Dr. Hung concluded Dr. Liegeois was “unfit.” Dr. Hall filed the criminally falsified narrative and claims with the Wisconsin Medical Licensing Board (DSPS) and Dr.

[Donate](#)

Liegeois' medical license was suspended by the Chair of all medical licenses in the United States without peer review or due process.

It is concerning there has never been an investigation or evaluation for what is now many allegations of intentional patient safety care compromise. DSPS dismissed complaints against physicians Dr. Jeffrey Hall, Dr. Ryan Bourdon, and nurses: Wendy Young, Kelli, Eklof, Laurie Peterson, Jennifer Kahl/Anita King. Cocaine dealer Dr. Steven Armus  medical license was

[Donate](#)

reinstated despite Dr. Liegeois complaining that he stole and used her medical license for illegal drug distribution. Dr. Liegeois discovered Drs. Kenneth Simons and/or WI politician Sheldon Wasserman deleted her prescription history from DSPS, evidence of Dr. Armus' racketeering. Dr. Sheldon Wasserman is running for office; racketeering is a matter of public interest. Some of these provider issues are being reviewed by the respective Minnesota licensing boards. If you are concerned about patient safety in Wisconsin, contact
