Description

10 Reviews

Felicity brings absorbent underwear into a whole new realm with it's advanced features and impressive capacity. Felicity Super Absorbent Underwear is the most absorbent protective underwear available.

The rapid absorb technology and advanced odor control provide both comfort and confidence.

This easy to use pull on design provides active comfort for day and night. Sturdy, yet soft cotton like materials provide both comfort and confidence.

Gentle leg gathers ensure confidence, even in active users and side sleepers. Leak guards stand 3.8cm tall for unparalleled protection.

Easy tear away sides make removal and disposal a breeze.

Designed by women, for women.

*Please note, this is our first run and the size L/XL has excellent elastic leg leak guards, however the leg opening is a little looser on the right side and will fit those on the larger side of the size range best. Prices has been discounted to reflect this and refunds/exchanges will not be given.

Felicity Sizing is more generous than store-bought brands of underwear.
